SHIVBABA'S MURLI

ADVANCE COURSE WORLD DRAMA WHEEL (1 HOUR)

In the picture of world drama wheel, in terms of basic knowledge it is told in short that this is a wheel of the world consisting of four arms that has been divided into four ages. These four arms of 1250 years each signify four ages. Among these arms, two arms are towards the right hand and two are towards the left hand. Two arms of the right hand signify the Golden Age (*Satyug*) and the Silver Age (*Tretayug*) [that is heaven] and the two arms of the left hand side signify the Copper Age and the Iron Age [that is hell]. Hell comes after heaven and heaven after hell. This change takes place after every 2500 years. But in order to transform the hell into heaven, in between, there is a confluence age at the end of the Iron Age, (which has been depicted in the form of a small arrow). This is a Confluence Age (*Sangamyug*) of 60/50 years, when the Iron Age is changed and the Golden Age is established in the thoughts. This cycle of 5000 years keeps rotating as it is; but when we delve deep into the *murlis* with this basic knowledge, then a lot of new points emerge. For this, Baba says, "Rotate the *swadarshan chakra* (the wheel of self realization)"(mu.16.10.02, pg.3). So this is the wheel of the four Ages. How does our soul pass this? This is a visualization of the cycle of the eighty four births of the soul. So, by diving deep into the *murlis*, by thinking and churning, a lot of such points emerge, which makes the entire knowledge of the scriptures clear. Baba has said in the *murlis*, "This drama is also like any other drama. But those dramas are limited dramas and this is your unlimited drama of 5000 years."(Mu.19.12.01, pg.2). When does the shooting of this drama take place? It takes place in the Confluence Age. So in the Confluence Age, the period of its shooting will also be fixed. The age (duration) of the Confluence Age has been mentioned to be 100 years (Mu.3.11.76, pg4) at the maximum and 40 years at the minimum in the *murli* (Mu.11.9.73, pg.3). However, Baba has mentioned the age to be 50 years some where (Mu.2.3.74, pg.2), and 50-60 years somewhere else (Mu.29.1.91, pg.3). In this way the age has been described in three or four ways in the *murlis*. So there's no need to get confused in this. According to the references in *murlis*, wherever Baba has mentioned the confluence age to be of 40 years is correct and wherever he has mentioned it to be 100 years is correct as well. There are four ages. They are like four scenes of a drama. And the time for the shooting of each age should also be fixed in the Confluence Age. It is not that the shooting of all the four ages will take place simultaneously. Certainly the shooting of the Golden Age will take place first. For e.g., when someone constructs a house, then the construction of the ground floor and collection of all the materials takes more time. Similarly, the first age is the Golden Age; a long time is needed in laying its foundation too. Even in the scriptures, the age of the Golden age is shown to be four times the age of the Iron Age, the age of the Silver Age three times the age of the Iron Age and the age of the Copper Age twice the age of Iron Age. In the scriptures the age of Iron Age is mentioned to be only 1250 years, but the scholars multiplied it with divine years and made out the age to be lakhs[hundred thousands] of years.

For e.g. Baba says, “There are no separate days or separate year or separate month for the deities.” Days, years, months are only here. For the shooting of the Golden Age, if the initial 10-12 years period of the shooting of the path of devotion is also included, then generally the shooting period of the Golden Age is of 40 years totally, but if the initial period of the Confluence Age is subtracted and (also) the sample of establishment of the confluence-aged heaven which was shown at Karachi, then the total age from 1947 to 1960 should be subtracted because even after 1950 there was no special progress from the point of view of godly service. Just as there is an account of the shooting and an account of the broad drama is made, similarly the actor-like souls descend from the soul world-like house to the world drama stage and their number keeps increasing. In the Confluence Age, until the destruction of the world takes place and the new generation begins and until the new generation is set in the correct position, it cannot be considered to be the accurate beginning of the Golden Age. And when the accurate Golden Age commences in the broad 5000 years drama, the souls descend from the soul world-like house and in the shooting period, the souls wake up into the stage of knowledge from the world of ignorance and the grave-like stage (i.e., they enter the path of knowledge). It is as if they come into the awakened stage. It’s as if the souls lie in the dormant stage in the soul world and are awakened after coming into world drama stage. Similarly in this world drama stage, at the end of the Iron Age, all the souls are lying in the slumber of ignorance. The Supreme Soul comes and gives them the message of knowledge and awakens them from the grave (of ignorance). So that message of knowledge which was spread very fast in the Brahmin world, was spread ever since the pictures were prepared and the service started taking place through the pictures. The pictures of trimurty, world drama and the world tree were actually prepared in the *yagya* since 1960-61. Even prior to that the draft of these picture had emerged in the intellect, but the complete form of these pictures was ready when first of all a book named ‘*Geeta Saar*’ (essence of *Geeta*) was published as an essence of the *Murlis*. In that book these three pictures were published and later on Brahma Baba had got thousands of folders printed. With these folders the task of service started in the outside world. Since then, the population of souls started increasing quickly in the world of knowledge and the shooting of the Golden Age quickened.

During the 16 years period from 1961 to 1976 the number of souls started increasing in the *gyan yagya* on account of the service of giving the message or receiving the message. As for the rest, when the souls who had come from Karachi were sent into the field of service, then among them, a doubt was created in the minds of many that now Baba is left with nothing (has become bankrupt), and many *Brahmavats* (children of Brahma) broke away from the *yagya*. The population decreased. Therefore, the service went down instead of increasing. Then, later when the situation improved slowly, the speed of service increased. So the period from 1961 to 1976 was a period of bringing pace in the field of service. Why has this shooting period been calculated only up to 1976? Because the 100 years age of Brahma is completed in 1976. *Aadi* Brahma i.e. the person in whom the Supreme Soul Shiv entered first, it was mentioned about him in the picture of trimurty that the Supreme Soul Shiv first of all entered in *Prajapita* Brahma. He entered into Brahma later on. It has been mentioned in *Murlis* , “The *Murlis* began to be narrated from Karachi”(13.6.01, pg.1). So the entering of the Supreme soul into Brahma is proved from the time when the *murlis* began to be narrated from Karachi. Prior to that Baba used to narrate *murli* through some other children. So, that *Aadi* (first) Brahma should be 60 years old in 1936-37 and if 40 more years are added to those 60 years then 100

years are completed. So the 100 years age of that *Aadi Brahma* is completed in 1976(17.9.68, pg.1). Brahma leaves the mortal world (*Mrityulok*). Brahma's age is completed in the mortal world (16.10.84, pg.2). So that soul takes a new unworldly(*aloukik*) birth from 1976, from the point of view of the stage of mind & intellect, from the point of view of taking a divine birth of revelation and from the point of view of revelation of his role.

Yesterday, it had been told in the explanation of the picture of *Lakshmi Narayan*, "When did *Lakshmi & Narayan* take birth?" Baba had asked so. "Ten years less than 5000 years ago" (mu.6.3.75). As per the *vani* (godly versions) of 1966, it is 1976. From the point of view of service, the period from 1961 to 1976 is especially a time for giving message and in that time all the souls, who undergo the Golden-aged shooting [whose number has been mentioned by Baba (mu.22.3.76, pg.1) to be 9 lakh at the beginning of the Golden Age (i.e. in the 1st generation) and 2 crores at the end of the Golden Age], obtain the message of knowledge. The *Gyanamrit* magazine published (by BKs in Hindi) in 1973 contains the potamail (the details) of the entire service done until then. In that it has been mentioned that so far 1 crore souls of the world have been given the message. So the 1 crore souls out of the 500 crore souls of the world are like a small part. So the calculation was correct. Big fairs began to be organized from 1973. In each of these fairs lakhs of souls began to be given message at a time and every month fairs began to be organized in some or the other big city of India. So from 1973-74 to 1976, another 100 lakh i.e. 1 crore souls receiving the message was not a big achievement. In this way the scene of the drama or the task of the shooting of the 2 crore human souls of the Golden Age receiving the message of knowledge is completed. In the picture, who have been shown as the chiefs in the Golden-aged shooting period? Who are the souls representing the Golden Age? The (souls representing the Golden Age are) the souls of *Radha & Krishna*. We know that this is the same period of the shooting of golden Age, in which the souls of *Radha & Krishna* (i.e. the souls of *Mamma & Baba* or *Brahma & Saraswati*) occupy a permanent place in the hearts of the Brahmin children. They play the roles of hero & heroine. So they become instrumental for the Golden-aged (*satyugi*) shooting.

After that the period of Silver-aged (*tretayugi*) shooting begins, as it has been shown in the picture. Similarly, who are the chiefs in the second, Silver-aged scene? The (chiefs in the second, Silver-aged scene are) souls of *Ram & Sita*. So certainly in the silver aged shooting, the souls of *Ram & Sita* should appear in the Brahmin world, on the stage as the representatives or chiefs. So it happened as expected. If the souls of *Radha & Krishna* become instrumental in establishing the Brahmin world, if they create the new world of Brahmins, then this task of establishment in fact took place in the golden Aged shooting. But until the dirt is destroyed, there's no value for the establishment. So, two kinds of Brahmins got collected in the old world of Brahmins. Brahmins like *Ravan & Kumbhakarna* also came together and the effort making *Vashistha & Vishwamitra* were also present. Then Shankar's part begins in order to segregate the elevated section among them, to undertake sorting, and to destroy the wicked section. Just as the soul of *Krishna* plays the part of *Brahma* in the picture of *Trimurty*, similarly the soul of *Ram* assumes the role of *Shankar* in the picture of *Trimurty*. In the picture of 'Trimurty' with writings in Hindi, the verses written below *Vishnu* are a proof for this. In that, an explanation for the four arms of *Vishnu* has been given. Four arms mean the four souls helpful to the Supreme Soul shown in the form of the arms of *Vishnu*. So, four names have been mentioned in the picture- *Lakshmi & Narayan* and *Ram & Sita*. That's why four arms have been depicted in the picture of *Vishnu Chaturbhuj* (i.e. four armed *Vishnu*). Two arms are towards *Brahma*

& two arms are towards *Shankar*. So the two arms, i.e. *Brahma & Saraswati* are indicative of the establishment of the Brahmin religion and the two arms i.e. *Ram & Sita* undertake the task of sorting in the confluence aged world. They clean the dirt so that the great souls, who become inheritors of the new world, could find their place.

In this way the account of the silver-aged shooting which begins from 1976 is the fact that 10 years before 1976, i.e. in 1966 Baba had made a declaration in a *murli*, in the coming ten years the old world will be destroyed, i.e. the old world of Brahmins will be destroyed. “The old world has to be certainly destroyed. The preparations are being made. Ten years are remaining.” (10.10.66; Pg.3; middle) Through whom will it take place? It will take place through the soul of *Shankar*. There must be a soul who is instrumental in causing destruction. So that soul is the soul of Ram, for whom Baba had said in an *Avyakta Vani*, “When was the flame of destruction ignited? Who was instrumental?” Then a reply was given, “Just as in the beginning of the *yagya*, the flame of destruction was ignited from the *yagya kund* (literally it means the sacrificial altar, but here it refers to the Godly family) along with the task of establishment. Brahma Father & the children became instrumental. So those who have become instrumental in igniting the flame of destruction will also have to complete it in future.(a.v.3.2.74, pg.173)” Those souls had themselves become instrumental in the beginning. The soul of Brahma, the souls of the Brahmin children and the Father Brahma, i.e. the soul of *Prajapita* or the soul of Ram, for whom it has been said in the *murli*, “In the past, in the *yagya*, Ram failed (mu.11.10.87, pg.2).” That same soul comes into the *yagya* after Brahma leaves his body in 1969. That soul takes its effort to a stage of maturity by 1976 and is revealed in 1976. Just as *Brahma & Saraswati* were the representatives in the world of Brahmins. Similarly, in the new world of Brahmins i.e. in the world of advance party, the souls of *Ram & Sita* (the souls who are revealed as *Shankar & Parvati*), play the role of the representatives of the silver-aged shooting among the Brahmin children. That is why those children occupy the hearts and minds of the advance children just as *Brahma & Saraswati* occupied the hearts and minds of the Brahmin children from 1946 to 1976. So the souls of *Ram & Sita* also become instrumental in the silver-aged shooting of 30 years. Their 12 years period of service from 1976 to 1989 is especially instrumental and fixed for causing the silver-aged shooting. Even here the account of giving message is the same, because Baba has mentioned the population at the end of the silver age to be 5-10 crores. At the end of the silver age the population is not 33 crores. If the population at the end of Silver Age becomes 33 crores, if the population increases from 2 crores to 33 crores in 12 births, (if it increases 16 times) then the population at the end of Copper Age will certainly increase many times, isn't it? Then, in this way what will be the population at the end of the Iron Age? Then, it's not so that just by the end of Silver Age, 33 crore deity souls descend from the soul world. Baba has given the account of five to ten crores, but not accurately. There will be 5-10 crore deities. So this is not a big matter. So till 1976, two crore Brahmins receive the message. The messengers keep multiplying. The number of messages being given goes on multiplying. That's why in the next 12 years from 1976 to 1988-89 another eight crore human souls receive the message from the fairs, conferences, big programs. And in this manner the silver-aged shooting is completed.

Now a question rises. There the souls of *Brahma & Saraswati* and the Brahmin souls became instrumental in giving the message. However, here many are unable to even see the souls of advance party. Only those who are in connection or in contact know. The souls of advance party have not been shown to be taking any

special part in the fairs, conferences and the celebration, exhibitions etc. From where did they become instrumental? How did the souls (of Ram and *Sita*) who represent all the souls become instrumental in giving message to the world? The account of the population of Silver Age which has been calculated for them is that- In 1976, when the destruction of the outside world did not take place, the faith of Brahmin children in Baba's *murlis*, in Baba's knowledge diminishes. The seniors of the BK Brahmin family do service not because they have faith in the godly task, but because those seniors or chiefs understand clearly that another new party has emerged with which they cannot compete with respect to knowledge and yoga. That's why they cannot compete with the souls of that advance party even after organizing programmes of yoga & service not only at all-India level but even at the international level. In their words Advance Party is itself called the '*Shankar Party*', although Shivbaba's three children are equal. Brahma, Vishnu and *Shankar* are like brothers. But they have started *partyvaad* (parties). Fearing the *Shankar* party, whatever international programmes of yoga & service they organized, through them, they could not bring even slight harm to that party. Passing through ups & downs is not a big matter. This *yagya* has been passing through ups & downs ever since the beginning. The boat may shake but it will not sink. Baba had especially told even today that people of the world say that '*Om mandali*' is as good as gone. What does *Om Mandali* mean? '*Aa*', '*Oo*', '*Ma*'. '*Aa*' means Brahma '*Oo*' means Vishnu. '*Ma*' means Mahesh, i.e., a group (*mandali*) of Brahma, Vishnu & *Shankar*. For e.g. there are music groups, aren't there? Someone plays harmonium, someone plays '*tabla*' (a kind of drum), some one plays *Saarangi* (a kind of guitar). Then 2-4 persons collect to form a group. Similarly, this is a special group of three souls in the task of world transformation and this group is so strong that in the beginning, people of the world used to say, "*Om Mandali* is as good as gone." Whatever happened in the beginning happens in the end. In the end, among the world of Brahmins, the faithless Brahmins who are going to be destroyed also start telling that this group is going to end sooner or later because they do not have faith in the sayings of Brahma. They read the *murli* of Baba just for show off. Just as the false (worldly) Brahmins recite *Geeta* to earn money they do not feel the necessity of delving deep into the verses (*shlokas*) of the *Geeta*, similarly nobody tries to go into the depth of the versions of the *Murli*. If someone does delve deep into the *murli*, then they say, "*Arey!* There's no necessity to go into the depth, you will sink".

It means that until 1988-89, only the souls of Ram and *Sita* become instrumental in giving the message to 10 crore souls and along with them the advance party also becomes instrumental. Fearing them, the *Brahmakumars* and *Brahmakumaris* organize big programs of godly service so that the intellects of people are not diverted towards the advance party. Otherwise why will those who have become faithless, organize programs of godly service? They do not even know when heaven is going to be established? When will the old world be destroyed? How will those, who do not have any aim in their Brahmin life, show others the indications? They run the business just for their own livelihood. They give message to the world under fear. Actually, they are not interested in giving the message, but it's their compulsion, because they have already left the outside world. Now, if they leave this (Brahmin) world, then the people will laugh at them. That's why those poor fellows are entangled. So being under the bondage of giving the message and on being pushed by the *Shankar* party, they prove to be the *Pushkarni* Brahmins. They are the Brahmins who perform parade on being pushed to do so. They are being pushed by some special souls, based on which or under the influence of that push, they are giving the message to the other souls, to the worldly souls and not by their wish from their heart and

mind. So who gets the credit of giving the message? The souls of Ram and *Sita*, (i.e. the souls like *Shankar – Parvati*), the special main souls of advance party get the credit for that.

After this, if anyone asks that why only 12 years time is fixed (in the drama) for the shooting of the Silver Age, then the main reason of fixing the special time of the shooting of the Silver Age is that Baba has said, “It takes 50 to 60 years to establish the entire kingdom (mu.24.7.72, pg.2)”. “It takes 40 to 50 years, also 50-60 years for you children to become *satopradhan* (completely pure) from *tamopradhan*(impure) (mu.6.10.74)”. This *yagya* of knowledge precisely runs for 50 years. Then after studies, it is war, which is the time of the ferocious (*mahabhaari*) Mahabharata war, and when the war ends, one attains the kingdom (mu.8.3.72, pg.4)”. So the time for these three things is fixed. When does the study lasting 50 years end? From 1947 to 1998 – this period of study of 50 years is completed. In the shooting of every age, a year has also been added as *roong* (grace). That’s why the period of shooting of the Silver Age from 1978 to 1988 -89 is for 12 -13 years. Even in the path of devotion one never donates just 50 rupees. They donate just 50+1 rupees. So these 12+1=13 years of shooting of the Silver Age is completed in 1990.

B-Side

After the shooting of the Silver Age, the period from 1991 to 1998 is fixed for the shooting of the copper age. In the Copper Aged shooting, the main souls have been shown in the picture, which have to play a special role, (i.e., Abraham, Buddha and Christ). So these souls of Abraham, Buddha and Christ are the seed-like and base-like souls in our Brahmin world, who are revealed in a special way at the end of the shooting of Copper Age and they play the special role of establishment, fostering and destruction of their own religions and they are also revealed. The souls of Abraham, Buddha and Christ, who come from the soul world, will not be revealed. First of all, it is about the revelation of the base-like and seed-like souls of the Brahmin world, because until the religious fathers are revealed along with the base-like and seed-like souls, their followers and subjects cannot get the message. In this way, the period till 1998 is the time for establishment of the living capital, because Baba has said, “It takes 60 years for the establishment of the entire kingdom. Your entire kingdom will be established in 60 years”. So when is the 60 years period completed? In 1998. Initially the living (*chaitanya*) capital of the seed like (souls) is to be established, i.e., the family of 16,108 kings and queens, the royal family will indeed become stable (later on) number wise in a living form and when this task of establishment of the living capital is completed, the establishment will take place and the destruction will begin. Until establishment has taken place completely, the destruction cannot take place. Rehearsal will go on. That is a different issue. In order to bring pace into the effort of the children, rehearsal will keep taking place in between, but the total destruction will not take place. Total destruction, wars, dispute, fights, bloodshed will take place generally in the world but particularly in India. It will take place when the shooting of an age of disputes and sorrows, i.e., the Iron Age will end. In the Indian tradition the *Mahabhari* (ferocious) Mahabharata war and the establishment which takes place through that war has been shown in the Copper Age because Dada Lekhraj, who is the secondary Brahma, completes the age of 100 years in 1988-89. Brahma’s age ends in the mortal world. So when Brahma’s 100 years age ends then his new divine birth should be revealed. Baba has said, “When Krishna takes birth, lightening occurs.” What is meant by lightening? (Lightening means) flash of light for

a second and then darkness again. Lightening occurs suddenly in the world of Brahmins and then, light and shining is seen everywhere and then darkness again. So Baba has given the indication of the birth of Krishna who has become a point i.e. seed-like. That is why the period of 1988-89 is a period of the beginning of Copper-aged shooting. That is why, in the scriptures, Krishna has been shown to have lived in the Copper Age. Krishna did not come in the Copper Age, but the special role of taking a divine birth, which has been played by the soul of Krishna was played at the beginning of the Copper Age and the special role of causing the Mahabharata War has also been played at the end of the Copper-aged shooting, i.e., the Iron-aged shooting. That is why, in the scriptures Krishna has been shown in the Copper Age. The memorial (*yaadgaar*) of that very Confluence-aged Krishna exists in the scriptures. There's no memorial and there will be no memorial of the Krishna who takes birth in the Golden Age. There will not be any *Kans* (Krishna's maternal uncle and king of *Mathura* who killed seven of Krishna's siblings, and tried to kill Krishna too but was eventually killed by Krishna) there.

After 1998-99, the Iron-aged shooting begins in the world of Brahmins. The war of thoughts, disputes, killings will take place and at that time the souls of the world will receive the message at a fast pace. The Supreme soul will also be revealed at a fast pace and the worldly religious fathers – Abraham, Buddha, Christ, who descend from the soul world in the Iron Age, their base-like souls and the seed-like souls will also be revealed earlier than them and at the end of the Iron-aged shooting, a wave of knowledge will begin to spread across the world. Death will spread its hood in all the direction i.e., North, South, East, West. But the might/force of knowledge will also go on increasing. and after the year 2018 when the entire world has the realization of the Supreme Soul God the Father, there will be explosions of atomic bombs in the final five to seven days and with the fourth world war this world will end. 500-600 crore human souls and the souls of insects, animals and birds will leave their bodies and become the dwellers of the soul world. Some special seed-like souls will remain on this world drama stage, who would have made their process of (inhalation and exhalation) breathing subtle through the power of yoga, in whom there will not be any effect of the atomic atmosphere because their process of breathing (inhalation and exhalation) will be so slow that they will not require to take a special deep breath. At that time the mountains of ice which have formed over the North Pole and the South Pole will melt. And due to their melting, the level of water in the oceans will rise. The result of this will be that the Continents like Russia, Africa, and Australia which were not existent in the minds of human beings before 2500 years; just as America. Human beings did not know where the land of America was situated 500 years ago, whether it existed or not. Australia was unknown 300 years ago. Similarly, all the other lands of the other religions, for e.g. the land of Arabs, Muslims or the land of Christians were also immersed in the depths of the ocean 2500 years ago. So these destructible lands of religions which were neither present earlier nor will be present in the world after the atomic explosions will get immersed in the depths of the ocean. There will be only one indestructible land of Bharat (India) and there will be only ocean in all the four directions of the world. Due to the heat produced in the world because of the atomic explosions, the level of water will of course rise, but the ocean water will vaporize and rise upwards due to the heat in the atmosphere. Those vapors will then precipitate as clouds and torrential rains will take place for many days. Rain will not stop at all. Due to the atomic explosions the biggest destruction will take place through earthquakes (mu.24.3.99, pg.2). When the earth will shake, then all the houses will fall down and all the human beings will be

crushed to death under the buildings. They will be suffering the punishments for their sins. Someone's leg will be crushed and somebody's arm will be crushed. There will not be any one to extricate them. They will suffer to death.

After the year 2000/2018, after the subtle and physical destruction, among the four and a half lakh human souls who remain, (i.e.) the seed-like souls who will give birth to the new world, half of them will be like *Shankar* and half of them will be like *Parvati*. Half of them will be in the list of sinful souls, (with an attitude of *Duryodhan* and *Dushyasan*) and half of them will be in the list of pious souls, who have been described as per the world of Brahmins. As for the rest, the worldly pious and sinful souls will not remain. For e.g., Baba has said in *murli*, "When destruction takes place half of those who remain will be pious souls and half of them will be sinful souls." It means that the sinful souls, who remain, will have to make effort once again. (Someone asked, "Will the pious souls not have to make effort?") In their (pious souls') company the sinful souls will be present as well. When they come into the company of (those) souls then they will indeed be colored by the company to some extent. So one kind is the original pious souls and the sinful souls and another kind of souls are those who become pious or sinful due to the company, i.e. those who come under the influence of others. So what kind are the queens? They are the ones who come under the influence of the kings. After the destruction, the souls of all those who survive will return from the soul world and then will enter into their bodies. Someone may ask, "How will their bodies be preserved?" The reason for that is that when it rains torrentially for many days then the atmosphere of the world will become cold. Ice will set almost everywhere in the world and in that ice, those seed like souls who are very strong in the stage of remembrance, will leave their bodies. That is why, the bodies of those yogis will be buried in the ice as if in cold storage, the natural facility that will be prepared by the nature. Their bodies will remain safe and it will remain safe until their souls enter into them from the soul world when their turn comes, through some means or the other. In this way, the new world will begin. The seed like souls, will once again begin their penance in the soul conscious stage, realizing the proverb '*ant matey so gatey*' (i.e., "The final thoughts will lead to ones destination"). At that time there will not be *Shivbaba's* remembrance. There will not be any knowledge. All the knowledge will be forgotten.

Even in today's world, sometimes such an accident takes place that if someone suffers from such an injury to the brain, then he forgets everything of the past. Similarly they too will forget everything of the past. (Someone asked: how long will the torrential rains last?) The torrential rains will last for a few days. *Arey!* If it rains continuously even for 4 hours, people start crying out for help. That is however a matter of a week or two weeks. But the atmosphere will become cold and the ice which will set will be set for a long time. In many areas of the world, the ice will be set for many years and in that ice their bodies will remain well protected. Until the birth of the souls like *Radha* and *Krishna* takes place, the bodies of many will remain like that. Souls will keep descending from the soul world.

First, the souls will enter into the bodies of the seed-like souls. Those souls will enter into the bodies which are lying under ice. When the time comes the ice at that place will naturally melt and those souls will start moving. Gradually, everyone will gather, because these seed-like souls are the seeds of all the religions of the entire world. At the time of the final destruction, they will have to spread throughout the world. To whichever religious land or to whichever religion a seed-like soul belongs,

it will have to go to that *dharmkhand* [religious land]. Suppose someone belongs to a completely leftist religion, then certainly it will also be a seed-like soul who will turn the intellect towards opposite direction. Its intellect will certainly work in a direction opposite to that of the father, because it is a seed-like soul. In the seed there will be a quality which is a quality of other religions. There will certainly be a peel/covering of body consciousness covered on it. So, for those souls which become of an opposing intellect, it is said, “Those who bring disrepute to the *Sadguru*, will not find the accommodation (*sadguru nindak thaur na pave*)(mu.13.3.97,pg.2).” Such children of the seed-like father, who bring disrepute to the *sadguru*, will be thrown into far-off countries in order to do service at the time of destruction, where the dance (*tandav*: a dance as performed by Shankar/Shiv at the time of the dissolution of the world in Hindu mythology) of destruction would be taking place and even while living there, on the basis of their devotion, sentiments and faith in the supreme soul, even while performing service in the foreign countries, in foreign religious lands, even while giving the message, they will remain in the remembrance of the Supreme Soul father. And they will realize and will repent that they became instrumental for causing disrepute of the Father even after having recognized Him or having lived near Him.

In this way they will burn all their sins by burning repeatedly in the fire of repentance; but later it will certainly take time for those souls, who have spread out in the entire world to gather. That 18 years period is from the year 2018 to 2036. Just as the 18 years period is also important here (the period from 1951 to 1968 is an 18 year period, isn't it?). Baba had left his body and had become *Avyakta* in 1969. So for how many years did this corporeal and subtle (*avyakta*) role continue? 18 years. So just as the task continued for 18 years here, similarly 18 years are fixed there too. The *bhatti* will take place automatically for 18 years. Automatically means that they will not have to make any special effort, because the subject of knowledge would have ended. Only the subject of *yog* (remembrance) would remain. (Someone asked, “Will there not be the knowledge of Shivbaba?”) The subject of knowledge will end. What is knowledge? Introduction to the Supreme Soul, introduction to the soul, introduction to the creator and the creation; this itself is knowledge. So, that will end. *Yog* means soul conscious stage, the stage of ‘your final thoughts will lead to your final destination’ and there will be no need to do service, because there will be no opposing souls, who need to be served and one will not need to make any special effort to inculcate. Until we have to come in contact with the worldly opposing souls we need to do the effort of inculcating. If we remain continuously in the remembrance of the Father, then how will we be coloured by the company of worldly people? But, until destruction takes place we have to come in contact with the huge gathering of the 500 crore human souls of the world and their atmosphere or environment. So that atmosphere will not be present there. That is why there will be no need to inculcate virtues too. Inculcation of virtues will be automatic. So in the *yog bhatti* of 18 years, the first couple who will be successful in purifying (rejuvenating) the body i.e. the five elements, is *Shankar* and *Parvati*. They will themselves become instrumental for giving birth to the children like *Radha* and *Krishna* at that time. So those 18 years (for rejuvenation) and if 18 is doubled, we get 36, and then we arrive at 2036. In this way the accurate Golden Age will commence. From then onwards the four and a half lakh children of the first generation will start taking birth. Through whom? By those number wise 4.5 lakh seed-like souls who would have rejuvenated their bodies numberwise through the power of yoga. In this manner, the Golden Age begins with a population of 9 lakhs. So this is the account of the shooting of the four Ages and the period after that of the world drama wheel.

In this advance knowledge, the second aspect of the picture of the world drama wheel is that every age passes through the four stages in its shooting period. Passing through four phases means passing through *satopradhan*, *satosamanya*, *rajopradhan* and *tamopradhan*. It means that the rotation of a cycle is included in the shooting of an age. For e.g. let's consider the Golden age. The period of Karachi was a completely pure, *satopradhan* sample of the first birth. *Satopradhan* shooting took place there, because the one corporeal Father's company was there. They did not get to see even the face of any *tamopradhan* human being. So to whom will they give their hearts? Baba has asked in the *murli*, "When you did not even see anyone, then whom will you give your heart to? To the one father." So how will be the stage then? *Vyabhichari* (licentious) or *avyabhichari* (one and none else)? It will become *satopradhan*, isn't it? So, in that shooting period, the stage remains *satopradhan and avyabhichari*. After that even the *satosamanya* stage occurs. And that *satosamanya* stage begins when the children are made to enter the field of service in Mt. Abu. So when the children enter the field of service, they will certainly go up and down (in their stage). At that time Baba had given them a direction to maintain their stage constant. Does anyone know what that direction was? At that time Baba had given a direction, "Go soon, come soon" Go soon for the Godly service and come back soon. So in case of those children who followed the direction, whenever their stage degraded a little, they used to come running to Baba. Their stage was made up in between by coming into the colour of the company of Baba. And those children who lost their faith, became disillusioned and remained in the old world. Their stage went down day by day. The stage of those children *who* used to visit Baba once in a while became *satosaamanya*, because continuous company was not there, was it there? So this stage continued up until Mamma and Baba were alive. Mamma was the controller of the *yagya*, the administrator. "As the king, so are the subjects". The soul of Paramatma Shiv (i.e. the Supreme Soul), the soul of God the Father was indeed present in the body of Brahma Baba. So, "As the company, so was the colour (effect)". The stage was *satosaamanya* for those children who the company of the corporeal medium. The children who were in the company of the corporeal remained in the *satosamanya* stage until that time. The Silver-aged shooting took place. After that when Mamma-Baba left their bodies, the corporeal company ended and when the corporeal company of the Supreme Soul ended, and then there remained the company of the incomplete Brahmins and the *tamopradhan* world. So the stage became Copper-aged *rajopradhan* stage. In this manner, the shooting of *rajopradhan* Copper Age began from 1969. When the Copper Age begins then the population increases quickly in the foreign countries. In the *yagya* too, the same thing happened. The first service centre of London was opened in 1969, which became the head office of all the foreign countries, (someone asked, "When?") after Baba left his body; because the population of the outer world also increases at a fast pace through the Copper-aged *rajopradhan* stage. The souls of the other religions start coming into power. Even in the *yagya* of Brahmins the same thing happened. This cycle continued till 1973 and after 1973 a big human undertaking of downfall began once again. It became a house of downfall. Baba has said, "Dirt accumulates in the fairs. True fair is the practical union of the soul and the Supreme Soul (mu.23.10.74)." In 1973, the Supreme Soul was not present in a practical form. Therefore, in 1973-74, in the fairs of the souls, *tamopradhan* human souls started entering in large numbers and started coming in contact with *Brahmakumars* and *kumaris*. When lakhs of people with corrupted vision and attitude started coming in contact with the *Brahmakumars* and *kumaris* through company and vision, then how will the stage be maintained? How far will they cover up? Their stage became *tamopradhan*. That is why Baba says. "As the

company, so will be the colour/effect). Bad company and bad food are two very great defects.” So from 1973 to 1976, the *tamopradhan kaliyug* (degraded Iron Age) was established in the Brahmin world. In this manner, these four stages were included in the Golden-aged deity shooting, as if a cycle was repeated. Just as the drama is repeated in 5000 years, similarly ditto repetition takes place in these 40 years.

Whatever activities took place 40 years back in the *yagya*, the same activities take place again from 1979 to 1989 after 40 years i.e., the Silver-aged shooting also passes through four stages. The Advance party commences from Delhi because the special task of the seed-like souls of the Advance party is to establish the capital. The task of establishment of the Brahmin religion by Brahma and Brahmins and the task of the beginning of the establishment of the gathering of the capital (the heavenly gathering), by the seed-like souls of the advance party, (the souls who are going to become kings), starts from 1976, although this gathering began through a few souls. For e.g. Baba has said, “One and two will add to become twelve.” Even a single powerful group, a group of 12, $12 \times 9 = 108$. Even if a single powerful gathering is prepared, then they will keep attracting other groups and finally the gathering of rosary of 108 will get revealed. So initially after the shooting of the four Ages, a group of 12 comprising of great souls like *Prajapita* Brahma will get ready, won't it?

In the Silver-aged shooting, among the seed-like souls of the Advance party too, these four stages are seen. The *satopradhan* stage takes place from 1977-78 to 1980. From 1980-81 to 1983 the stage becomes *satosamanya* and the fort of Advance party which becomes ready in Delhi, is destroyed by 1983 when the *rajopradhan* stage begins, because the Supreme Soul father vanishes from the eyes of the seed-like souls of the advance party. In this manner, the night of Brahma begins. This period from 1983 to 1988-89 is fixed for the Copper-aged *rajopradhan* stage and the Iron-aged *tamopradhan* stage. In this way there are four stages in the Silver-aged shooting too. Similarly in the Copper-aged shooting too there are four stages- *satopradhan*, *satosamanya*, *rajopadhan* and *tamo*. By 1998, the *tamopradhan* stage of the souls of *vaishya* class (it literally refers to the business class among the Hindus, but in this Godly knowledge, the souls of each age are compared to the four classes of Hindu society, i.e. Golden Age corresponding to the Brahmins, Silver Age to the *Kshatriyas*, Copper Age to the *Vaishyas* and the Iron Age to the *Shudras*) also ends. After this, there are the four stages of the souls of *Shudra* class as well, which is seen from 2000 to 2003-04. After that the practical shooting begins.

In this manner, after the end of the practical shooting of these four Ages, the intellect of the special Brahmins is transformed. The transformation of the body made of the five elements, i.e. the body, will commence after the transformation of the soul comprising of the mind and the intellect. That too will be repeated four times. Just as the example of snakes was given that a snake leaves the body i.e. skin 3-4 times and then dies (mu.18.7.70, pg.2). In the picture of ‘the world drama wheel’, the third point of advance knowledge which was hinted now is regarding, “Brahma’s day and Brahma’s night”(mu.6.10.88, pg.1). Until someone has faith on the corporeal Godly role, it is Brahma’s day for them, and when the faith ends, it is said to be the shooting of Brahma’s night.

Om Shanti
