**Student:** Baba, [what is the meaning of] Atri?

**Baba:** ....The one who is called Atri (*a tri*). It means 'he is not three'. What? He is not three. He is not two either. What is he? He is only One. The one whose wife.... the helping *shaktis* of Brahma, Vishnu and Shankar...; Brahma, Vishnu and Shankar who are considered to be the highest, their *shaktis* are highest as well. Even those *shaktis* are proved to be lower than Atri's wife Anusuiya in *purity*. So, will Atri be higher or lower than Anusuiya? *Arey!* He is the husband, isn't he? Does the one who is higher follow directions of a lower one or does the lower one make the higher ones follow his directions? So, Anusuiya is lower and Atri is higher than her.

So, the one who is not three, who is only one, who is called God the Father; Parvati is not with him, Sarasvati is not with him either, neither is Lakshmi with him . Yes, Anusuiya is with him. Because Vaishnavi comes from the *Vijaymala* (the rosary of victory). Does she come from the *Chandravanshis* or from the *Suryavanshis*? She comes from the *Chandravanshis*. Sarasvati is Brahma's daughter and Parvati is Shankar's wife. In Shankar, the soul playing the role with the name and form of Shankar is different and the soul playing the role in the form of Shiva is different. So, the true form of Shiva that is called God the Father, the Supreme God the Father is accepted by the entire world. That Atri and Anusuiya should be in which *mala*? They should be in the *Rudramala* (the rosary of Rudra).

So, in the *Rudramala* there is a seed of the *Suryavanshis* too. So, is there the seed of the *Chandravanshis* or not? (Someone said: there is.) Will the seed of the *Suryavanshis* be hot-natured or cool-natured? He will be hot-natured. And will the seed of the *Chandravanshis* be cool-natured or hot natured? (Students: Cool-natured.) Is there more *purity* in the cool-natured one or is there more *purity* in the hot-natured one? The one who is cool has cool nature and *sanskars*. Do the organs become peaceful, cool through the power of yoga or do they become hot? They become cool.

So, who was given the name 'Yogini' among the virgins and mothers? Only if she is sharp in yoga, she will be sharp in *purity*. Otherwise, she is a bead of the *Rudramala*. Are the beads of the *Rudramala* men or women according to their nature and *sanskars*? According to their nature and *sanskars* they are men, Duryodhans, Dushasans. Yet, if someone is the most cool - natured even among those Duryodhans, Dushasans , then she is only one, who has been given the name Anusuiya. And the name Anusuiya that has been given, has it been given on the basis of the work or has it been given just like this? The name has been given on the basis of the work. The one who doesn't have jealousy and resentment is called Anusuiya. Will the pure one or the impure one have no [jealousy and resentment]? The more impure the soul is, the more jealousy and resentment it will have towards the others and the purer the soul is, it can't have any jealousy and resentment towards anyone. (Concluded.)
