Student: Baba, my question was, while making *purusharth* in his life how can a *purusharthi* (the one who makes spiritual effort) know his marks in the *final exam*?

Baba: You spoke about the previous *kalpa* and the end of the previous *kalpa*. So, first when did the *kalpa* end for Lakshmi-Narayan? In 76. And when will [the *kalpa*] end for the eight? In 2018. And when will [the *kalpa*] end for 108 [souls]? (Students: In 2028.) When ten years complete [i.e.] 50 years, the rosary of 108 [beads] will also become ready. Will the complete capital along with the royal officers be established or will the incomplete capital be established? The complete capital will be established. When the complete capital is established, will the politicians of the capitals of the other religions of the entire world start to confront [it] or not? Or will they simply accept him (Narayan) as the World Emperor? (Student: They will confront.) Is the kingship obtained after the fight or is it obtained without the fight? (Students: It is obtained after the fight.) So, the fight will continue to take place from 2028 till 2037-2038 for the revelation of the World Emperor. And almost every year, every religious father, the Prajapita (father of subjects) of their respective religions will also start to be revealed. Among those religious fathers, which religious father and his subjects will die first of all? The Islamic people will bow from body consciousness first. They will die from body consciousness; does it mean they died in the figurative sense or did they remain alive? *Arey*, did they die in a figurative sense or did they remain alive? They died. They will belong to the Father first of all. So, will the most *powerful* religious father and his *powerful followers* be revealed among the most [powerful] *vidharmis* (those whose beliefs and practices are opposite to that set by the Father) and *videshis* (foreigners) or not? They will. In what sense are they *powerful*? Neither the Hindus became as *powerful*... did the Hindus give more sacrifices in the struggle for independence or did the Sikhs, who confront the Muslims, give more sacrifices? So, are the Sikhs more *powerful* or are the Hindus more *powerful*? (Student: The Sikhs.) And those *powerful* Sikhs, who are firm in their religion, haven't come in the Advance [knowledge] now. What? A saying is said among the Hindus to tease the Sikhs: '*Sardarji* (Term of address or reference to a Sikh), it isn't 12:00 yet!' It means, now the Sun isn't speaking (shining) on your head after rising, after becoming very hot and intense. When it emits very sharp light, your eyes will open. Now, you don't believe [us]. So, when is it about? It has been proved in the Confluence Age in practice. But the Sikhs are a handful and the number of the Islamic people is so big that before the Christians came to power in this world, it was these very Islamic people and the Muslims who ruled over the entire world for a long time in *history*. So, what was the specialty that despite being so adulterous they became so powerful in *history*? (Student: They have love for the body.) Do they become powerful because of having the love of the body? (Student: Gathering...) The gathering, *unity* comes from what? (Student: Purity.) *Unity* comes from *purity*. They have *purity* for the One Incorporeal Father in a collective form in their mind and intellect. [They have faith in] one religious father and the One Incorporeal Father. They have *purity* to such an extent that they don't miss a chance even if they have to sacrifice their life for that One. The terrorists that are emerging today, from which religion are they emerging? (Student: Islam.) Those terrorists have so much power that for the sake of their religious father, for the sake of *Allah Miyan*, for sake of the belief of One *Allah*, they are ready with their life on the palm (to sacrifice their life). So, won't they receive power from God? (Student: They will.) They die first of all in front of the *Ishwar* (God) who has come in practice. That is why, they are shown the most powerful in *history*. And will their ancestor (*puurvaj*) be revealed first among the eight deities or will he be revealed in the middle or in the end? *Puurvaj*. *Puurva*

means first, *ja* means the one who is born. Among the Islamic people, among the followers of the other religions, the *founder* of the Islam religion, the main *founder* is born first, [he has] the revelation like birth. Then, number wise (according to their ranks) the eight deities are revealed. And when the eight deities are revealed, what is that year named? (Student: 18.) *Attha* (eight), *rah* (remain) (*athaarah*=18). How many will remain? Only the eight will remain alive. And all the others will seem to be dead in this world. So, the end of the *final paper*; is it at the same time [for everyone] or is it at different times? Did you get the answer? Om Shanti.
