Topic - Silence vs Science

The means of *science* are going on increasing a lot. Moreover, we too are promoting these means of *science*. The establishment isn't going to take place with them. In fact, we are falling into [a pattern] of bad habits because of them. What? We are spoiling our habits with the means of *science*. How are we spoiling them? We are making use of means for the work that can be accomplished through the concentration of the intellect. So, the Father says, your establishment will take place only through *silence*. Your establishment isn't going to take place through these means of *science*. These means of *science* will help with the destruction, not establishment.
