Topic - God goes after establishing the noble world

When Lord Krishna came at the end of the Copper age in the form of God, did he establish the sinful world of the Iron Age? God will by no means come and establish the sinful world of the Iron Age. When God comes will he establish a virtuous world or a sinful world, then what is the use of God's arrival? The scriptures have been written by human beings; God didn't sit and write scriptures. What? Just as when the religious fathers like Abraham, Mohammed came, they did not write the Quran sharif, they directly spoke through their mouth. Christ came and narrated the versions of the Bible, through the mouth. He didn't write the Bible. In the same way, Guru Nanak also directly narrated through the mouth, he didn't write the Guru Granth Sahab.
