

Short No. 45, VCD - 310

Topic - Recognition of the Suryavanshi children

Sun burns itself and gives light to others – similarly *Suryavanshi* children do not care for their own comforts and peace. What will they do? They may endure sorrows and disturbance themselves, but they will remain busy in causing benefit to others. They will be said to be the ones, to treat the entire world equally, the world benefactor (*vishwa kalyaankaari*) children. This is my country; that is your country – they should not be the ones who keep such a point of view in mind. This is my center; that is your center; this is my *Gitapathshala*; that is your *Gitapathshala*; if it is like this, then the number will go backwards.
