Topic - God comes and gives new knowledge for the new world

So, when God the Father comes to this world, he teaches everything new. Humans teach the same old things written in shastras (scriptures). When Human Gurus do the discourse, they read the scriptures written by humans, and teach the same. No one teaches anything new. The Father comes and teaches everything new. What kind of knowledge is needed to create a new world? Is new [knowledge] needed or old? New knowledge is needed. He creates a new world and imparts new knowledge and makes us children from old to new. He not only makes the old soul new but rejuvenates the body as well.
