Topic - The importance of purity

The more there are the *sanskaars* of purity of the 63 births in a soul, the better he will be able to remember [Baba] in the Confluence Age. And the more he has the *sanskaars* of knowledge, the deeper he will be able to remember [Him] on basis of the pinnacle of knowledge. Purity is acquired through remembrance and remembrance becomes firm through purity. You have un-adulterated remembrance.
