Topic - You shouldn't pressurize children for dogly studies

This is why Baba has said not to teach *dogly* study. The children don't study it, especially those children who are following the knowledge. It has sat in their intellect that the world is going to be destroyed soon. So, is the intellect of children *saatvik*, do they have a pure intellect or do parents have a pure intellect? Children have a pure intellect. You shouldn't put a lot of *pressure* on them.
