

Short No. 721, Disc. No. 1083

Topic - What part will seed form souls play in the future?

Baba: What is the *part* of a seed in future? It detaches [itself] from the tree and keeps becoming more detached. It detaches [itself] from kernel first. When the seed dries, it detaches from the kernel itself. The *connection* of the tree cuts with the seed. It is present inside the tree, despite being inside it, its *connection* cuts with it. The same will happen with the seed form souls. They will live in this world [but] despite living in it, the *connection* of their intellect will be *cut* with the worldly people.

Student: When it is cut, what will be the need for them to come in this world?

Baba: What is the need to come in the world? When they attain the perfect *stage*, it is about then, isn't it? It is about the perfect *stage*. They will be judged whether they are *cut* off [from the world] or not.
