Topic - Self-transformation leads to world-transformation

“I will do it if he does it.” No. The one who acts first is Arjun. You take the second rank in this. Otherwise, change your *slogan*. Instead of ‘world transformation through self-transformation’, what should you do? Change it to ‘self-transformation through world transformation’! Is world transformation first or is self-transformation first? If the world is transformed [and] then you transform yourself, you will lag behind. If you transform yourself first, your rank will be high and the souls of the world will keep following you.
