Topic - Bharat is a matriarchal country

Bharat is the only matriarchal country. It is a country of the mothers. The specialty of this place was mentioned: just like a mother, be it any of her children, be it the youngest therefore the naughtiest one (*chota so khota*). If he comes to her, she will sustain him on her lap; she won't wish to keep him away. So, this country Bharat is such that no matter how many tyrant *vidharmi* came from foreign lands, Bharat accepted everyone, it gave a place to every one of them. So look, this is the one and only matriarchal country, from where the population of the other religions of the world originates.
