

**VCD No. 206, Dated 08.04.2005, at Jammu,**  
**Clarification of Night class 15.03.1966**

Today's *vani* is the night *class* dated 15.03.1966. It is a *murli*. The army of the Pandavas is hidden and you are very few. Compared to whom? (Students: the Kauravas.) Compared to the Kauravas, the Yadavas, you are very few. Who are called Pandavas? Who are called Kauravas? And who are called Yadavas? The sons of Panda are called the Pandavas. Those who become the sons of Panda are the Pandavas. For example, the followers of Jin are Jains. So, the Highest of the High Shivbaba is Panda. Those who *follow* Shivbaba accurately... What does 'to *follow*' mean? They lead their life the way Baba has mentioned in the *murlis*. They neither *mix* their opinion nor do they let others' *mix* their opinion. Such Pandavas, the sons of Panda, are very few. Otherwise what happens? They are influenced by the words of others to some extent. They believe in the hearsays. They are influenced by the other human gurus. Then, they either go in the *list* of the Kauravas or they become the Yadavas. Those who accept, know as well as follow the directions of the Supreme Soul are the Pandavas. The Kauravas are those who do know the directions of the Supreme Soul that this is what has been said in the *murli*, such concepts have come in the Supreme Soul's *vani* but they don't accept it despite knowing it. And when they just don't accept it, when they don't accept the concepts of the *murlis*, the question of following them doesn't arise at all. What did Gandhari do? She blindfolded herself deliberately. She is Gandhari of Gandhiji.

In the unlimited language of the *murlis*, there is the limited as well as the unlimited Gandhi. That Gandhiji also used to say: I will bring the kingdom of Ram, I will bring the kingdom of Ram. However, what happened all the more? It became the kingdom of Ravan all the more. The unlimited Gandhi also used to say: the kingdom of Ram will come. I will bring the kingdom of Ram. However, what has happened all the more? It has become the kingdom of Ravan all the more. That Gandhiji also died while saying this. The unlimited Gandhiji also left the body. Nathuram Godse killed/shot that Gandhi. It is also mentioned in the stories of the scriptures that Krishna, on whose name such a voluminous book of the Bhagvat, the Bhagvat Katha was made and such a voluminous book of the Mahabhaarat was made. The Mahabharat war took place. It is the most popular scripture of Bharat; the Shrimad Bhagwad Gita emerged from it. That Krishna who is the *hero* of Bhagvat, Mahabharat as well as of the Knowledge of the Gita, a hunter shot an arrow at his foot and he died. Krishna's soul isn't any different soul. Brahma's soul means Krishna's soul. Someone shot Brahma Baba too with such an arrow of words and when he came to know about the truth of that arrow within two days... The truth was - the *World Renewal Trust* was established without informing Baba.

Today, all the ashrams and big buildings of the Brahma Kumaris have been registered under that *Trust*. The entire *property* is under that *World Renewal Trust*. When Baba came to know about this reality – in fact, Shivbaba has said in the *murli*: you children should keep taking buildings on rent and go on doing the *Ishvariya* service. You don't need to build houses and accumulate *property*. And houses are being built in Mount Abu so that when destruction takes place, the children will go there and take shelter. In the future, the entire Mount Abu will have to be purchased for children's *safety*. It is because this has been written in the Jain scriptures as well that when the destruction of the world takes place, Mount Abu which was earlier named Arbudacal, they have named it Mount Ashtapad there. It is the place from where the highest positions (*pad*) of the world, the eight positions (*ashta pad*) are declared. It is because the destruction takes place in the entire world but Arbudacal is such a place which has such power of *tapasya* that that place won't shake. The earthquakes will occur but the seed form souls of the world will remain safe there at that time. Otherwise, if

the seed itself is destroyed, where will the new world come from? So, Baba gave this concession – you do have to build [houses] in Mount Abu. Rest the entire world has to be destroyed at any cost. There is no need to waste children's property. Invest it in the *Ishvariya* service.

However, when they established the *World Renewal Trust* and Baba certainly knew in the *murlis*... Mamma wasn't present at that time. She had left her body. Had Mamma been alive, she wouldn't have let them make this mistake at all. The direction which is mentioned in the *murlis*: you children don't need to have your organization, your Brahmin family registered under the corrupt *government*. It is certainly a family of we Brahmins. The mother and Father are sitting. This family runs by their *permission* and *direction*. We have to take *shrimat* from them on every step. So, a family is never *registered*. However, when the secret of the *World Renewal Trust* was revealed in front of Baba, he was very much shocked. On top of it, such children whom Baba trusted a lot were involved in it. And they took such a step violating *shrimat* and they said such words that he (Brahma Baba) died. Someone may say: no, all this is false. So, the first *bulletin* which was published after Baba passed away... someone might have it in their stock of *murlis* even now. This thing was published in that *bulletin* - after conducting the night *class* Baba went to his room at 8 o'clock. He felt pain in his *heart*. By the time they called the *doctor*, he breathed his last breath. If someone leaves his body because of a *heart* failure, what will it be called? Won't it be called a *heart* failure? Later on, when the *advance party* emerged and started to *declare* this fact, they hid this fact [saying:] Baba had a sudden *heart* failure. However, truth is truth after all. It can't be hidden.

This is the tradition among the Muslims and the Christians that the children forcefully usurp the *property* while their parents are alive. Just like Aurangzeb did during his time. In the Indian tradition, when the parents are 60 years old, they happily hand over the *property* to their children. They look it after for some time and when they reach the *vaanprastha* stage, they go after happily handing it over to their children. The children don't snatch it from them. Now the same souls, who have been converting to the other religions since the Copper Age, have come and gathered in the present world of Brahmins. The *history* says that it is the Hindus who have always converted to other religions. The souls of the other religions never accepted the Hindu Religion. This very procedure continued even till the end, till the *last* 100-200 years, until the Arya Samaj came. So, the souls of Bharat who continued to *convert* to other religions were very weak souls who became the Brahmins of the weak categories here, in the Confluence Age and... There are nine categories of Brahmins. Those Brahmins belonging to the weak categories followed incomplete *shrimat* and acquired the Brahmin status like [the saying] 'Little knowledge is dangerous'. They adopted their opinion to some extent and the opinion of others to some extent and let go of *shrimat*. Such souls who stay weak continue to *convert* to the other religions since the Copper Age. Such souls are included in them who stayed surrendered in the *yagya* but couldn't assimilate the vow of 'One Father and no one else' in their life. Why? It is because *sanskaars* of adultery of the Islam of many births are filled in them. Those *sanskaars* don't allow them to *follow* it. What? 'One Shivbaba and no one else.' And as soon as those souls go in the outside world, in the *service field* and come under the influence of the other souls or are influenced by the important people in a worldly manner and come in their contact and connection, they are influenced by them. After being influenced [by them], they violate their principle of staying pure. Then, *impurity* comes in them.

However, the seed of this was sown in Karachi itself. It has been said in the *murlis*: you children just didn't use to see anybody in Karachi so, whom will you remember? You will remember the One, won't you? You remember someone you see through your eyes.

When you didn't see [anyone] at all, there was no question of remembering [them]. Nevertheless, it was obligatory for one soul to have *connection* with the outside world. He was Vishwa Kishore Bhau. He used to bring in supplies from outside. It is about [when they were in] Pakistan. He had to come in contact and connection of the Muslims. So, there was this concession for one soul; because of that very soul, there was a *friction* between Prajapita and Brahma in the beginning of the *yagya*. He was Brahma Baba's nephew. The father's direction was - not all the souls should be kept in the *yagya* but the special souls who supported Brahma Baba refused to accept it. Therefore, that soul stayed in the *yagya* since the beginning. *Pollution* certainly increases.

Brahma Baba is the soul of Krishna. The horoscopes of Krishna and Christ are matched. Krishna's horoscope and Christ's horoscope is proved to be the same on the basis of their name. Krishna died with his foot pierced with a thorn and Christ also died in crucifixion. The clan originated from Krishna and the clan originated from Christ... They say in the scriptures that Krishna ruled over the Yadavas. Who is shown as the head of the Yadavas in the Mahabharat? Krishna. And as per the world, who are the Yadavas now? As per the world. Those who have invented the *atomic energy* [and] the *missiles*. It is shown in the Mahabharat as well that the pestles emerged from the stomachs of the Yadavas and they destroyed their clan as well as the entire world with those pestles. The Yadavas in the form of Russians and Americans have invented those *missiles* in practice in today's world. Whose progeny are they? Of Christ. The horoscope of Christ and Krishna are matched on the basis of some similarity. What is the similarity? The Christians are born after the Jews. The Islamic people came 500 years ago. And the Christians came after 500 years. So, the European religious land didn't exist earlier. The Arab country emerged first of all. When the Islam came, the Arab countries also emerged from the ocean along with the arrival of Abraham of the Islam. And the *generation* of the Islamic people increased there. After 500 years of [the arrival of] Islamic people, the *generation* increased in the European religious land. It means from where did the Christians originate? Even today the fight is going on between Israel and Ramallah. The fight going on between the Muslims, the Islamic people and the Christians is like a fight between the heirs.

In fact, in the Indian tradition, Shivbaba comes and establishes such a family that lasts as it is for 2500 years without any quarrel. Even today, there are such families in the land of Bharat; such families are seen in South India where the food for 60-70 members is cooked on the same stove and there are many daughter-in-laws, grandsons, great grandsons in the same family and no one dares to take a step against the head of the family. So, the family structure in Bharat has been very strong. And that firmness [in the family structure] is established by the Sun of Knowledge, Shivbaba. Dualism started ever since the Christians and the Islamic people came. What is that dualistic age named? (Students: *Dvapur*.) *Dvapur* (the Copper Age) [meaning] there are two cities, two opinions, two clans and the *foundation* of fights and quarrels started to be laid on the basis of duality.

So, the main reason of matching Krishna's horoscope with that of Christ is... The Christians know where they originated from; that is why they couldn't break that tradition. Which tradition? The tradition of adultery. It is because when Abraham comes, there were no Islamic people at that time in the world. They had to expand their *generation* for sure. In order to expand the *generation*, this rule was made at that time that even brothers and sisters should get married. And that tradition of marriage is going on among the Muslims even today. However, they exclude the direct blood relationships, the children nursed by the same mother don't get married but they [marry] the daughters of *caca* (paternal uncle), *bua* (paternal aunt) or *mama* (maternal uncle). In our Indian tradition, they are considered to be

brothers and sisters. There, they don't consider them as brothers and sisters and marry each other. They do that even now. In South India... Baba has called it 'the foreign land of Bharat' in the *avyakt vanis*, this tradition is continuing there even today. It means the *foundation* of this adultery taking a root in the family structure starts to be laid from our Confluence Age world of Brahmins. In the Confluence Age world of Brahmins, there are such Brahmins too who know that this [particular person] has a dog like nature; they come to know about their acts, their behaviour [and] conduct yet they forgive them and give them the position as the head of the family in the *yagya*.

This quarrel started since the beginning of the *yagya* itself and its example can be seen even till the year 73. A big *centre* in Nayanangal was going on in the year 73. And that big *centre* which was running well suddenly uprooted. If there is disintegration in any of the establishments in the Brahmin world, what is the reason behind it? Why does it come to *disunity*? What is the main reason of *disunity*, disintegration of a gathering, disintegration of any *centre*? (Student: *impurity*.) If there isn't *purity*, there is *disunity*. *Purity* forms *unity* and *impurity* breaks *unity*. So, the centre of Nayanangal suddenly uprooted in the year 73. And they moved a main brother from there and with the help of his money, they formed a Pandava Bhavan which is situated in Karol Bagh, Delhi. And the brother who supported with his money... Though the *centre* in Nayanangal was uprooted... and mainly that brother became instrument for that; he is the head there today. He placed such a condition: I will certainly give money to buy a big building but Jagdish Bhai won't be appointed there. I will stay there. And the *didis* and *dadis* accepted that condition. They know that he is such a person; they understand his conduct, thoughts, behaviour well yet he was given a position. And he isn't just given this position! The '*Purity*' newspaper that is being printed; it has a very high circulation now. It is an English newspaper; he was appointed as its *proprietor*, the chief. You might have seen...

(Student: Baba, is he Brijmohan *bhaiji*?) I don't know his name ☺. You might have seen; the Christians are seen to be following that tradition even now in the outside world who like keeping dogs very much. Those are certainly the *animal* dogs but all this is about the Confluence Age world of Brahmins. Although, a human soul doesn't go in the 8.4 million species but there are certainly such human beings in this world who behave like 8.4 million species. So, the one whom we have recognized, we have understood that he has a dog like nature and if we keep favouring even him in the *yagya*, if we keep ensuring him safety among the mothers and maidens in the *yagya*, will heaven be established or will it create hell? Heaven can't be established. So, that *foundation* was laid since that time. When Brahma Baba was alive, the extent to which he respected and favoured Vishva Kishore Bhau he didn't accept any other brother to that extent. Till his death, the entire management of the *yagya* ... Vishva Kishore Bhau left his body a year before [Brahma Baba]; Brahma Baba left his body after a year. Until then the entire authority was in his hands. And after he left his body, Jagdish Bhai became the chief among the brothers. He was handed over the entire management of literatures.

So, this tradition... The Christian had special love for the Islamic people. Well, it is certain that the one for whom we have special love, at some point of time we also have a big quarrel with him in some births. We quarrel with the very ones whom we love more. That scene can be seen today. The Christians of America have become the enemies of the Islamic people and the Muslims. However, the *foundation* of all these things is laid in the Confluence Age world of Brahmins. The *foundation* of Mahabharat is also being laid in the Confluence Age world of Brahmins. The *foundation* of Ramayana is being laid, its *shooting* is taking place in the Confluence Age world of Brahmins. The *shooting* of the fight of the deities and

the demons is also taking place in the Confluence Age world of Brahmins. The Kauravas, the Pandavas and the Yadavas – all these three armies are in the Confluence Age world of Brahmins. When this entire secret becomes totally *clear* in practice... It is because people will just believe in *practical* concepts. The concepts mentioned in the scriptures won't sit in the intellect unless one finds *practical* proofs for them.

Now, the Confluence Age world of Brahmins has expanded a lot. Since the beginning of the *yagya* itself, the souls of all the religions, in the form of the *foundation*, the elevated souls of the entire world who converted to other religions, earlier, they were deities in some birth, they converted to other religions from the Copper and Iron Age, Baba selected those very souls one by one and brought them into the Brahmin family. However, those Brahmins certainly belong to different categories number wise according to their *purusharth*. Not all of them can follow Baba's *shrimat* exactly in the same way. They can *follow* the *shrimat* according to the group they belong to. Otherwise, they *mix* the opinion of their mind and the opinion of the human beings, the human gurus and become the instruments for laying the *foundation* of other religions. So now, that very task is going on in the *yagya*.

What is the reason that the Kauravas and the Yadavas are more dominant and that their population increases a lot? What is its reason? How did their population increase in the outside world, the *broad* world? How did it increase? *Arey?* A small population of the Hindus has remained. Although the Hindus were very old, the souls of the Deity Religion, a small and *limited* population of theirs remains in the world but the population of the Islamic people and the Christians has increased so much in the world! Now the population of the Christians is approximately 1.5 billion in the world. 100-125 years ago, the Muslims were spread in the entire world. There was just the rule of the Muslims. Now in the entire world, there is just the rule of the Yadavas. They themselves are prevailing. Even the united *government* of the world, which includes many countries, is afraid of those Yadavas. It is the same in the Confluence Age world of Brahmins too because the *shooting* of the end of the Iron Age is taking place. The Muslims and Christians are present in large numbers in the Confluence Age world of Brahmins; they will *convert* to the Islam, the Muslim religion or the Christian religion. They have become the leftist Brahmins in the *yagya*. Big buildings aren't called '*yagya*' like they have built Gyan Sarovar, Sukhdhaam, Shantidhaam or big *concrete* buildings in different big cities. It isn't called '*yagya*'. What is called '*yagya*'? The *yagya* of knowledge is called 'the *yagya*'. What? (Students: The *yagya* of knowledge.) What is the name of our *yagya*? The imperishable *yagya* of Rudra's knowledge (*Avinashi Rudra Gyan Yagya*). It starts through Rudra and it receives its final sacrifice through Rudra himself. The one who takes on a ferocious form is called Rudra. He took on a ferocious form and in the beginning of the *yagya* as well. Two parties were formed. And in the end too... it was said in the *avyakt vani*: the flame of destruction ignited along with establishment. Who became the instruments? Brahma, the father and the Brahmin children. So, those who became the instruments in igniting the flame of destruction since the beginning itself, they themselves will become the instruments in completing it in the end. [They are] Brahma, the father and the Brahmin children. Brahma has certainly left his body. Why are you involving him, the poor one? (Student: Prajapita Brahma.) No, Prajapita Brahma and Brahma are separate. There are many Brahmas. There is only one Prajapita Brahma. The father who sows the seed is called Prajapita; he is the one who sowed the seed of knowledge in the beginning of the *yagya*. Prajapita became an instrument in sowing the seed of knowledge. Someone assimilated that seed. Who assimilated it first of all? (Students: Brahma Baba.) No. Brahma Baba is in fact the child Krishna. (Student: The mother Gita.) Yes, the mother Gita. So, that mother Gita, who left her body and went away in the beginning of the *yagya*, who controlled

the *yagya* till Karachi, that very mother Gita comes in the *yagya* again after Brahma Baba leaves his body. And Brahma's soul enters her and plays his *part*.

So, Brahma's *part* is fixed in the task of establishment till the end. It means Brahma's soul hasn't left. It isn't that he is playing the *part* of the complete *stage* in Dadi Gulzar. That is the *part* in the bondage of the subtle body. The subtle body is incomplete. It isn't called the complete form. The seed-form *stage* is the complete form. So, the second [and] the main bead of the Rudramala, the one who is very much close to Shiva... One is Prajapita, the World Father and the second one is Jagdamba. So, Brahma's *soul* enters Jagdamba even now. He isn't worshipped in the form of Brahma. However, when that very Brahma enters that mother of the beginning of the *yagya* who comes back in the *yagya* and becomes Jagdamba, that form of Jagdamba is worshipped. What? Actually, this Brahma is your Jagdamba. Who is our Jagdamba? The mother of the world... What will be the special virtue of the mother of the world? What is the special virtue of a mother's *part*, which is called 'the king of all the virtues'? Which virtue is the king of all the virtues? *Arey?* Don't you even know which virtue is the king of all the qualities? The power of tolerance is the king of all the virtues. It was visible in which soul? In Brahma Baba.

That Brahma Baba who crossed the limit in playing the *saatvik part* of a mother in the form of the power of tolerance, the same *soul* of Brahma, who plays such a great *part* of tolerance to bring about establishment, becomes a helper of the Father and plays the great *part* of destruction. Through whom does the destruction of the demons and the demoniac traits take place? Through Shankar? Just the name of Shankar has been mentioned. He doesn't do anything. It is because all the actions are performed through the *karmendriyaan*. Shankar isn't shown performing any action through his *karmendriyaan*. He has been shown sitting in meditation. So, we can certainly say that he might do something through the vibrations but the vibrations aren't visible. Yes, this has certainly been said that the *shaktis* are inspired by Shankar. The *shaktis* are inspired by Shankar, the corporeal form of Shiva and on the basis of that inspiration, those *shaktis* become instruments in destroying the demons. This is why it is said that Jagadamba plays the *part* of **Mahakali**.

So, does Jagadamba who plays the *part* of Mahakali, become the helper of the Pandavas, the Yadavas or the Kauravas? (Students: Of the Pandavas.) She certainly becomes the helper of the Pandavas. When the Father is wonderful, the children of the Father are also wonderful and their *part* is also wonderful. The same Brahma Baba, who was topmost in the power of tolerance, will now be revealed in the world, in the Brahmin world after becoming the topmost in the power to confront. It is the same *shakti*. 'Actually, this Brahma is your Jagadamba'- this has been said in the *murli*. *Brahm* means senior, *ma* means mother. So, Brahma means 'the senior mother'. Regarding the *part* of the senior mother... That body with a beard and moustache is over. No one considers it to be Jagadamba [because] that was a male body. Nevertheless, when that male enters a female body and is revealed in the world of the Brahmins, he is worshipped in the form of Jagadamba. Why is he worshipped? What is worshipped? Is it purity that is worshipped or is *impurity* worshipped? It is *purity* that is worshipped.

So, that Brahma Baba's pure *soul* enters Jagadamba even now and keeps her purity intact. These are the concepts of the connection of the intellect. Baba explains this to the *baandhelii* mothers as well. The *baandhelii* mothers keep complaining to Baba: Baba, my husband doesn't agree. He keeps making me impure. Baba says: children, your body is in bondage but no one can bind your mind. So, make your mind fly in the remembrance of Baba. 'Mind and intellect' means 'the soul'. When the soul in the form of the mind and

intellect flies in the remembrance of Baba, what will the body be like? A corpse. How long will someone love a corpse? Eventually he will start hating it, won't he? 'This is a corpse!'

So, Brahma's *soul* is still playing his *accurate part* of Jagadamba. This is why it has been said in the *murli*: you have to *follow* Brahma in your actions in practice but you have to accept what I say. What? You mustn't listen to what Brahma says; you mustn't follow the *shrimat* of two. You must follow the *shrimat* of the One Incorporeal *Sadguru* alone. 'Incorporeal' doesn't mean a point. The body that the Point enters in its incorporeal *stage* and is revealed in the form of the father with a seed-form *stage* like the religious fathers... All the religious fathers have an incorporeal *stage*. You may look at Guru Nanak, Mahatma Buddha or Christ. What does their face emanate? Does it emanate the corporeal or the incorporeal *stage*? It emanates the incorporeal *stage*, as if their soul dwells in the Supreme Abode. So, those are certainly the religious fathers of the other successive religions. When Shiva enters Prajapita, the father of the Ancient Deity Religion and is revealed in front of the world in the complete stage, with what an incorporeal *stage* he will be revealed! For this, it has been mentioned in the Gita: *aham biij pradah pita* [i.e.] I am the Father who sows the seed of knowledge. That seed of knowledge was sown in Brahma at the beginning of the *yagya*. Otherwise, Brahma certainly had visions but no one can understand [knowledge] through those visions. Mira could neither understand them nor did she go to *vaikunth*. Surdas, Tulsidas also had visions but they didn't receive any attainments. The Supreme Soul Shiva comes, enters some corporeal body and reveals the secrets of those visions on the basis of knowledge. That was sowing the seed of knowledge.

So, He is the Guide (*Panda*). Who? Shiva. He isn't the *Panda* in the form of a point. He comes as the *Panda* in the corporeal form. Those who follow the directions of that *Panda* are the Pandavas; it has been said in the *murli*: you have to *follow* Brahma in actions and accept My *shrimat*. What does 'My' mean? How will the Point of Light give *shrimat*? Will He give *shrimat* without a mouth? He certainly comes into a body and gives *shrimat*. And He comes and gives *shrimat* at the *time* when the massive destruction of the Mahabhaarat is standing ahead. Both the armies were face to face. On one side, there were the vast armies of the Yadavas and Kauravas and on the other side, there was the small army of the Pandavas, of the five Pandavas. 'Five Pandavas' don't mean that there were only five. Five Pandavas mean those who can be counted on the fingers. How many Pandavas are there in Jammu? You can count them on your fingers that there are these many Pandavas. Someone may ask: how many Kauravas are there? How many Yadavas? No one can answer. They are innumerable.

So, there are few Pandavas and what about the Yadavas and the Kauravas? They are numerous. So, the army of the Pandavas is secret. They are few this is why they are secret. Regarding the ones who are secret, it has been said in the scriptures that they lived in the city of Kampil for a long time. They are living there even now. That family is being sustained as a familial gathering by the mother and father in the city of Kampil even now. Where is the family of the Pandavas being sustained? Where are they born? In the city of Kampil. For example, the *laukik* children are sustained in the womb for nine months and then they are born in their parents' house. That concerns the broad *drama* of 5000 years. This *shooting period* of the *drama* is just of 100 years. So, Baba has said just for nine days in [those] 100 years. One day for coming, one day for going and seven days of the *bhatti*. The soul is baked for seven days and those who become [the ones with] a faithful intellect means they become the children of the Father. If they have a doubting intellect, it means that they died. If he has faith, it means that he has become the Father's child. And if his faith is uprooted, it means

that he has died. So, there are very few who become victorious by having a faithful intellect; they have to gain victory. Om shanti.

**Student:** Baba, is it for nine days or seven days?

**Baba:** The seven-day *bhatti* constitutes one day for going. 24 hours before... they are coming from all over India, aren't they?

**Student:** Baba for me, it took 13 days there.

**Baba:** It took 13 days? Just there?

**Student:** While coming and going...

**Baba:** No. Then, that isn't counted. It is a compulsion [to stay] there just for seven days. You mustn't even make a phone call, write a letter for seven days. There mustn't be any *connection*; [the connection] with the outside world should be *cut*. For example, when a soul leaves a body, its *connection* with the outside world is *cut*. It immediately goes and enters the womb. That's it! It will receive food and water in the womb itself. So, it keeps being sustained secretly. So, these Pandavas are also hidden and they are very few but they are very powerful. Om Shanti.
