

VCD No. 236, Dated 19.05.2005, at Aara (Bihar),
Clarification of Morning class 14.07.1966

We were in the middle of the first *page* of the *vani* dated 14.07.1966. The topic being discussed was: unless that Ocean of Knowledge comes face to face, how will He explain the knowledge? He certainly doesn't give the knowledge through inspiration. These are the concepts to be understood nicely. It isn't that He came in the body of Brahma in the year 1968 and kept narrating the knowledge. Then, He left the body and went away on 18th January, 1969. And someone continues to understand the knowledge on his own, this isn't possible. No human being teaches us. Baba teaches us. And the Baba who teaches us is the Unlimited Incorporeal Father. He isn't any limited father. Those religious fathers are also the limited fathers. They are the fathers of 1-2 billion *followers* of their religion. Abraham, Buddha, Christ are all limited fathers. One *Supreme Soul* Shiva is the Father of the unlimited human souls. This concept has been explained to the children: everyone has two fathers, the corporeal and the Incorporeal Father. The Unlimited Incorporeal Father is the Father of the souls. And the unlimited corporeal father is the father of the entire human world. One is spiritual and the other is physical. The Father Shiva is spiritual; He is the Father of us point like souls. They apply a *tiika* here, between the eyebrows in the *yaadgar* of the point like souls. This is the sign of the soul stabilizing, they apply a *bindi*. The Father of those point like souls, the *Supreme Soul* is also a Point of Light. He is the Spiritual Father. And the body that the Spiritual Father enters and gives the spiritual *knowledge* is the bodily father. The Spiritual Father Himself comes and purifies the souls. The bodily father doesn't purify them. Though he is the beginning of the entire human world, he is the first father of the human beings, he is called Adam, Aadam [or] Adidev, he doesn't perform the task of purifying [souls]. Had he performed [that task], he had had many births in the world earlier too, he would have performed it in those births as well. No. That *Supreme Soul* Father comes only in this last birth of the Iron Age and purifies the impure ones.

You know how you become impure from pure and pure from being impure. How do you become that? You become impure as well as pure by being coloured by the colour of company. You become pure by being coloured by the company of the One. That One is the Highest of the High *Supreme Soul* Shiva who doesn't come in the cycle of birth and death. He is called *Niranjana*, (devoid of sins), *Nirakar* (incorporeal) *Akarta* [and] *Abhogta*. When He comes in the corporeal world, enters a corporeal body and is face to face with the children, it is then that we souls become pure through the colour of His company. We are coloured by the company of His intellect. The intellect is the most important thing. The *indriyaan* aren't the most important. Other parts of the body aren't the most important. So, special attention is paid on remembering [the Father] through the intellect. However, when do you remember [something] through your intellect? It is when you have experienced it through your *indriyaan*. For example, when you see something through your eyes, you remember it. So, the eyes are also an *indriya*, aren't they? In the same way, as regards all the other *indriyaan*, the company that you have through those *indriyaan*, the impression of the colour of that company is imprinted on you and it keeps coming in your memory. The *Supreme Soul* Father is certainly the Highest of the High. His impression would definitely be strong. Other human souls are certainly the ones with number wise power according to their *purushaarth*. He is in fact Almighty.

So, you become pure from [being] impure this way, how? Through the colour of His company. And those who were pure deities in the Golden and the Silver Age [i.e.] the kingdom

of Ram and Krishna, how have they become impure now while being born repeatedly by the end of the Iron Age? How did all the *Bhaaratvaasis* become impure? They became impure by being coloured by the company of many [souls]. Abraham and his *followers* came and established Islam. Christ came and established the Christian religion. Buddha came. Mohammed came. All the religious fathers and their *followers* of the other religions who came, the *Bhaaratvaasis* continued to *convert* by being coloured by their company. They converted because of being coloured by their company and continued to become impure. Today, the population of the Hindus is very small. Despite the Hindu religion being the oldest, the population has declined. Why? It is because they started being influenced by the colour of other's company. Now at the end, when all the religions fall, when there is blind faith in the name of religion, the *Supreme Soul* Father comes to establish the same Ancient Deity Religion. In addition, He comes and purifies the entire world. Who is called impure? The ones who continue to become lustful, wrathful, greedy, the ones with attachment, egoistic [and] vicious are called impure. The deities were vice less. It is also said that [they were] complete with all the virtues, complete with 16 celestial degrees, completely non-violent [and] *maryada purushottam*.

So, Shiva comes and makes [us] that *maryada purushottam*, complete with 16 celestial degrees and vice less. Human beings are called vicious. Today, men and women have become vicious. They have become lustful, wrathful, greedy, the one with attachment and egoistic. It is the task of the Supreme Soul, the Father to come and make them vice less. The human souls can't make [others] vice less. A human being can't perform the task of making human beings into deities. It is in fact God's task. God Himself comes and makes human beings into deities. So many great souls [and] religious fathers like Abraham, Buddha, Christ, Guru Nanak came, Vivekanand [and] Gandhiji came but the world continued to degrade. Why did it continue to degrade? It is because the human souls themselves degrade as well as make others degrade because of the colour of their company. There is only the Almighty Supreme Father Supreme Soul Shiva who uplifts the souls. He purifies the impure souls; He makes them into deities from human beings. This is why the knowledge mentioned in the Gita is to make man Arjun into Narayan and woman Draupadi into Narayani. No one else except the *Supreme Soul*, the Father has this *machinery* of making human beings into deities. A human being will make [other] human beings into a doctor, an engineer, a lawyer by teaching them [the studies]. However, only God comes and makes human beings into deities and kings for many births through Raja yoga. Otherwise, there have been so many big and small kings and emperors in the *history*; who taught them to rule? When did he teach them? Definitely, someone would have taught them to rule.

So, it is the very period of the end of the Iron Age when this world is going to be destroyed. Atom bombs have been prepared. The slogan '*Har-Har Bam-Bam*' is about to be raised. When the world reaches such a stage, the Supreme Soul Father comes and makes human beings into deities. When? It is when there is democracy in the entire world; there is the rule of subjects over the subjects. When the rule of kings ends, when the eminence of the study taught by God ends, it is then that the Supreme Soul Father comes and establishes the kingship again. There will be one religion, one kingdom, one language [and] one opinion in the world. This would be the world established by God. Because of one opinion, one kingdom [and] one language in the world created by God, there will be only happiness. There won't be the name and trace of sorrow there. This is why the name of that world is '*Satyug* (Golden Age)'. The age of what? The age of *sat* (truth); there won't be the name and trace of falsity. In today's world, there is only falsity. There won't be a single human soul who doesn't do anything false through his

body, mind, wealth, time, connection [and] relationships. No human being can say confidently: I have never lied. It is because this is the world of falsity. All the kings have become impure. When the kings, who were the creation of God, themselves have become impure, as is the king so will be the subjects. All the subjects have become corrupt. In fact now, there is the rule of subjects over the subjects.

So, the Father says: now it sits in your intellect how you become pure from impure and impure from pure. There is also a picture in front of you. Pictures are the *yaadgar* of the acts [performed]. The elevated actions which the deities have performed have been depicted in their pictures. So, the Father gives you the advice: go and sit in front of this cycle repeatedly. This is the world cycle: the Golden Age, the Silver Age, the Copper Age and the Iron Age; they are shown in [the sign of] the swastika. It is called the sign of swastika. The four arms signify the four ages. One age comes after the other. [Deities] are complete with 16 celestial degrees in the Golden Age. They are left with 14 celestial degrees in the Silver Age [and] 8 celestial degrees in the Copper Age. Then, the human being becomes devoid of celestial degrees in the end of the Iron Age. All the celestial degrees diminish. So, you should rotate this cycle in your intellect: how we became the ones devoid of celestial degrees, how we - who were joy-giving deities in the Golden Age - became sorrow-giving demons now. There is no such human soul who doesn't give sorrow to others through his body, mind and wealth.

So, you should go and sit in front of this cycle of four ages repeatedly. Then, the entire knowledge will continue to come in your intellect. We are sitting in the Confluence Age now. The Iron Age is going to be destroyed and the Golden Age is going to arrive. If we have to transform ourselves, many souls who have to transform themselves will come after us. It is because we are also the living stars of this earth. Those are the physical stars of the sky. It is said that every star has a world enclosed in it. That is certainly a false idea. Those stars don't have a world [of their own]. We star like souls have a world enclosed in us. A star like soul passes through the cycle of 84 [births]. When it passes through the cycle of 84 [births], it comes in contact and connection of many souls, human souls they become its world. Now, we are creating our world according to God's shrimat. We can create the most elevated as well as the sorrowful world [for ourselves] for many births. God the Father comes and is teaching us such a technique so that we can stay happy for many births, we [can] experience happiness, *jiivanmukti* for many births [and] not suffer sorrow but experience happiness despite being alive. It will happen when this concept sits in our intellect that we are in the Confluence Age. Now, the Iron Age is about to end and the Golden Age is about to begin; it is the confluence of both. The rest of the entire world considers itself to be in the Iron Age. They think: 40,000 years of the Iron Age are still left. *Arey*, forget the last 100 years, there wasn't even the name and trace of the atom bombs 68 years ago. It wasn't in the intellect of the human beings at all that there can also be such a destructive thing. When God comes in this world, He also has the material for the destruction of this world prepared. It is because this world has become *tamopradhaan*. And He also comes and gives the knowledge to establish the new world. The souls who take the knowledge, who assimilate it in their life become the Brahmins from the Shudras and then the Deities from the Brahmins. Now, this *machinery* is in progress.

In fact, the Iron Age is said to be pitch dark. Human beings keep suffering blows in darkness. Someone hits somewhere, someone else hits somewhere else. To suffer blows means to be deceived. All the human souls keep being deceived. It is because everyone has become a

deceiver. Now, you have received the light. What light have you received? It is you who have received the light of knowledge that the Sun of Knowledge is giving after coming. The rest of the entire human world is in darkness. You don't have this knowledge in the Golden Age [and] there isn't anyone who gives it either. Why? It is because the deities are happy there. You don't need knowledge in happiness. You needn't have to remember God. It is also said: everyone remembers [God] in times of sorrow, no one remembers Him in times of happiness¹. There is sorrow at the very end of this Iron Age. Every human soul becomes sorrowful. Then, God comes and gives the light of knowledge to make the sorrowful souls happy. That light of knowledge is lit in the mind [and] intellect first. The body doesn't become happy; first, the mind should become happy. It is because the mind is the seed. The thoughts of the mind are the seed. When the seed reforms, the entire tree reforms. This is also the human world tree. Brahma is the seed, the first man (Adipurush) of this tree; he is called Adidev (the first deity) Brahma. It is written in the scriptures that the world was created through Brahma's thoughts. So, the physical world isn't created first. First, every human soul creates his world for himself through his very thoughts.

Now, God has come and is teaching us as to how we could create our world for many births. You may either create a happy world for many births or a sorrowful world for yourselves. Some souls experience peace for many births. Some souls experience happiness for many births. And some souls suffer sorrow for many births. Why is there this difference? There certainly must be a reason. This difference is connected to the present time. Now, the knowledge that the Supreme Soul Father is giving after coming, those who go into the depth of that knowledge, who pay attention to the murlis, who have love for the murlis meaning love for the Murlidhar, they receive the attainments of happiness for many births. This is why God is called the Giver of Happiness and not the Giver of Sorrow. Ravan is called the giver of sorrow. Ravan is the one who makes [others] cry, whereas Ram is the one who makes [others] laugh, delight [and] rejoice. So, there is a vast difference between Ram and Ravan! Both of them are present now. You have the company of Ram as well. Anyone can take [his company] if he wants. In addition, you also have Ravan's company now. What is the difference? Ravan is shown with many heads and Ram is shown with one head. What does 'head' mean? Intellect, opinion. Ravan gives many kinds of opinions. Some give the opinions of the Christians. Some give the opinions of Islam. Some give the opinions of the Buddhists. Some give the opinions of Mohammed. Some give the opinions of the Sanyasis. You are receiving these various kinds of opinions, the opinions of Ravan for 2500 years, ever since you can find the world *history*. The world has fallen into the ditch by following Ravan's opinions.

Now, the One Father has come. He teaches: now, you don't have to follow the opinions of many. There will be Ram's kingdom if you follow the directions of the One. And there is Ravan's kingdom when you follow the opinions of many. Who is the One? The Highest of the High Father is the One. Abraham, Buddha, Christ, Guru Nanak, Mohammed [and] Shankaracharya are certainly religious fathers but they aren't the highest of the high. The One whom Christ as well as Mohammed consider to be their Father is the Highest of the High; all the religious fathers indicate Him as the One above. He is the One who performs the highest task. What highest task does He perform? He transforms hell into heaven. No religious father could perform this miracle. No matter how significant a religion of the world it is, whether it is the Christian religion, Islam or the Buddhist religion, none of them transformed hell into heaven.

¹ Vows made in storm are forgotten in calm

Instead of transforming it, they themselves kept falling in hell and took the entire world also towards hell.

Now, that One who is the Highest of the High has come. He gives a single *mantra*: remember Me alone. Don't remember anyone else. If you remember Me, the One, you will become the residents of heaven, the residents of happiness for many births. Listen only to what I narrate. Don't listen to anyone else's words. If you listen to the knowledge from many, the knowledge will become adulterated. Now, the adulterous world is going to be destroyed. Adultery has spread in every house. Tulsidasji wrote in the Ramayana 500 years ago itself: *bhaye varna sankar sabai* (everyone has mixed blood). No Brahmin is left. Everyone has mixed blood. When everyone had mixed blood 500 years ago itself, today's condition is certainly worse. This is why Baba says: there is brothel in every house. Now, Shiva has come to make this brothel into *Shivalaya* (Shiva's temple). The *yaadgar* is also made; there is the temple of Shiva. In Shiva's temple, the *shivling* is in the center and the deities are around it. The idols of all the deities are placed around the *shivling*. The idol of Shankar is placed in the main position. Then there is the idol of Hanuman. This proves that all those deities are worshipping the One; it is called *Shivalaya*. The place where [people] serve, praise, worship and exchange glances with the One alone is called *Shivalaya*. And the *alaya* [i.e.] house where a prostitute sits and serves many, flatters many [and] seeks the pleasure of *indriyaan* with many is called a brothel. Today, this world has become a brothel. Shiva has come to make this brothel into *Shivalaya*.

So, the Golden Age won't be called beneficial. The Golden Age isn't a beneficial age. It isn't the age that brings about benefit [to others]. There is benefit and only benefit there but it doesn't bring about benefit [to others]. Which age brings benefit to [others]? The Confluence Age brings benefit to [others]. It is because God the Father doesn't come in the Golden Age. In fact, the deities are present there. They don't bring benefit to themselves. They have certainly received the age full of benefit to live. The Confluence Age is the beneficial age. And it is present just once. It isn't present many a times. When is it present? At the end of the Iron Age and the beginning of the Golden Age. People say that it isn't the end of the Iron Age now. When it isn't the end of the Iron Age, why have these atom bombs been prepared? Have they been prepared for the decoration of our house? No. The thing which is prepared will certainly be used. If not today, they will be used tomorrow. Why aren't they being used [now]? They aren't being used [now] because unless the new world that God has come to establish, the new fort like gathering of the new world that He has come to form, unless that fort of the Pandavas is ready... It would be such a fort where no vicious person could step in. What happens now? The fort is made but a vicious person places his leg like intellect in it. Then, the fort breaks while in progress of being made. *Unity* is formed through *purity*. If *purity* isn't long lasting, *unity* won't be long lasting either. *Unity* means gathering. Now, the Father says: that fort of the Pandavas is going to be ready. Such a fort will become ready where no Duryodhan-Dushashan would be able to step in. It would be an '*impurity proof*' fort. When such establishment takes places, the destruction through atom bombs will start.

So, the Confluence Age is the beneficial age. Though there is the destruction of the old world as well as the establishment of the new world in this very Confluence Age, it is the confluence of both. However, it is the beneficial Confluence Age. Destruction is also beneficial. If destruction doesn't take place, the new world won't be revealed in the world. The 5-7 billion destructive souls who are spread in the world, as long as their vibrations and *drishti* are spread in

the world, we, a handful of Brahmins can't bring about any transformation through our vibrations. On one side, we try to reform vibrations [and] on the other side, the crowd [of impure souls] spoils the vibrations. So, the destruction is also necessary. Other religious fathers have established their respective religions. They didn't destroy the old misconducts, the old traditions. There is the One Supreme Father Supreme Soul alone who does the establishment as well as the destruction through the three personalities. In addition, when the old world is destroyed, the sustenance takes place through the gathering of the elevated souls that is left. The one through whom the sustenance takes place is the *combination* of the establisher and the destroyer; he is called Vishnu.

So, the Father comes in the Confluence Age and establishes the Golden Age world. Now look, you are benefitted so much! You don't have to do anything. You just have to remember the Father and the inheritance. You earn so much by doing this. It is earning as well as health. It is because the soul becomes *powerful* through remembrance. When the soul becomes *powerful*, the body also becomes healthy for many births. You gain good health. Your life becomes immortal. In the Golden Age, you will have a long life. And the life shortens in the Iron Age. What is the reason? The main reason of having a long life is that the elevated souls have the remembrance of the Almighty Father. And the life shortens in the Iron Age because the Almighty Father is considered to be omnipresent. If He is omnipresent, from whom will you receive power? Is it from the one who is omnipresent? Will your intellect concentrate if you consider Him to be omnipresent? He is present in him, this one as well as that one, He is present in every particle. So, will your intellect scatter or concentrate? It will scatter. So, your intellect scatters at the end of the Iron Age. The power of the soul decreases. The Father comes and tells us the true fact: I am not omnipresent. I am certainly *ekvyaapi*. And you need to recognize the one in whom I am *ekvyaapi* as to who that one is. The so-called Brahmins say: He is a point. *Arey*, the souls of insects and spiders are also points. The souls of animals and birds are also points. How will you come to know which point you have to remember? How will you come to know about the *peculiarity* of that point? How will you come to know about that personality? So, the address of that personality is mentioned on the basis of the knowledge. His introduction is given. When the soul receives His introduction, he becomes like Narayan from a man. This is why it has been said in the murli: the best *purusharth* is to remember Narayan. What? Why? Don't you have to remember Shivbaba? In fact, Shivbaba is merged in Narayan himself. He alone is always present in this world. Nothing is present forever in this world. There is only one soul who is always present in this world; the Supreme Soul Shiva enters him permanently in the Confluence Age.

So, your life becomes immortal now. You never die an untimely death. So, the children should be very happy [thinking:] the entire knowledge has come in our intellect. Yes, when you children come here, make *purusharth* and become worthy to explain [to others] in the exhibition. Learn for seven-eight days in order to make yourselves worthy. When your *practice* is complete, run immediately for *service*. You should return again after doing *service*. It is very easy to learn this. When you see the picture in front of you, it comes in your intellect: we are sitting in the Confluence Age. There are many people in the world today, whereas there will be very few people in the forthcoming world. How many people are present in today's world? 5-7 billion. And how many people will be in the forthcoming world? Not even the seventh part of 5-7 billion. [It isn't that] there will be 1 billion [souls]; not even those many [souls] will be present there. There won't be even the 100th part of 1 billion [i.e.] 10 million in the new world. There won't be the 10th part of 1 billion [i.e.] 1 million either. How many [souls] will be present in the

new world? There will be only 900 thousand [souls]. So there is a vast difference between 900 thousand and 5-7 billion human souls. All these souls will return. Where will they return? They will become silent and sit silently in the Abode of Peace. Those who return won't be worthy of living in this world [i.e.] the new world that the Supreme Soul establish when he comes.

Now, the Father Himself has come. He respects the children so much. He makes the entire world sit in the Abode of Peace and the children in the Abode of Happiness. It is said: the Resident of a far-off land has come in a foreign land. Ravan's land is a foreign land, isn't it? He hasn't come in His land but in Ravan's land. Yes, Ravan can never come in Ram's land. Ram comes, Shiva comes in Ravan's land but Ravan can't come in Ram's land. Where is Ram's land? (Students: the Golden Age.) The Golden and Silver Age. The Golden and the Silver Age is Ram's kingdom. And the Copper and Iron Age is Ravan's kingdom. So, Ram and his family members come in the Copper and the Iron Age i.e. Ravan's kingdom. However, Ravan's family members can't enter the Golden and the Silver Age that is Ram's land, Ram's kingdom. There is also a story about it. They narrate the story, don't they? They are all stories. There isn't any essence in the stories or tales. Look, many *novels* are also written. The writers of these *novels* become billionaires. They earn millions. Here in India, they earn millions, whereas in foreign lands, they probably earn billions. In addition, the sanyasis, gurus and holy men are the ones who narrate these stories. They also have a lot of money. They look after their Sanyas religion.

Now, your string has come in the Father's hands. Which string? Which of your string has come in the Father's hands? The string of your intellect has come in the Father's hands. That's it. I will eat with You alone, sit with You alone and I will be satiated [by eating out of] Your store. People think: all this belongs to God the Father. I am a *trustee*. We follow shrimat and do everything. Those who think [this] also eat from Shivbaba's store. Your heart becomes pure by eating from Shivbaba's store. It isn't that they don't eat from Shiva's store. Who? Those who stay in the household path as well as do occupation and business and consider themselves to be a *trustee*. What does a *trustee* mean? 'Everything belongs to the Father'. So, the Father gives the direction for everything: eat out of this much, collect this much. Whatever you continue to receive is enough. Those who follow the directions this way it is like they also eat from His store. They receive power. If you eat from His store, [Shiva's] store house is full; death and obstacles will stay far away [from you]. You will never die an untimely death after this.

Shivbaba comes at this time. He has also been praised. They celebrate *Shivraatri* (Shiva's night), don't they? However, no one knows how His storehouse is.

The Father certainly comes now, in the Confluence Age. The children also come [here]. They receive food from Shivbaba's store house. Who? The children receive food from Shivbaba's store house. If a good man surrenders himself, it is good. If he doesn't surrender himself, what will the mothers do? It is because it is the husband who earns. And the husband certainly doesn't *surrender* himself. When he earns, it is then that his wife will eat. So, he can't get it. Who? The husband. It is because he doesn't *surrender* his intellect. Yes, the couple who *surrender* themselves can be sustained from Shivbaba's store house. The Father explains this to the children nicely: you have to keep this knowledge in your intellect that you are sitting near the Father. Until you have attained the *karmaatiit* stage, you have to sit near the Father. You keep coming closer to your self-sovereignty day by day. Our time continues to pass. And you keep

coming closer. The first stage of the Golden Age has passed. Then, how much will it be said now? Look, how close you have come!

Now, the Father says: children! Your cycle of 84 [births] completes now. You have come to know about the cycle of your 84 [births]. You will say just by looking at your cycle: we are sitting in our Confluence [Age]. There is the Iron Age on that side and the Golden Age on this side. Tomorrow, we will live in our Abode of Happiness. The world doesn't know about it at all. They are certainly in pitch darkness. We make the earning of 21 births from the Unlimited Father. What? We make it. They don't make it. Who are 'they'? Those belonging to other religions don't make an earning from the Father for 21 births. And we make an earning from the Father for 21 births. We receive the inheritance of 21 births from the Father. Those who *convert* to other religions receive [the inheritance] of 20 births. They don't receive it for 21 births. They receive it for less number of births. Why? It is because they left the directions of the One Father and adopted the opinions of others at intervals. This is why their inheritance lessens. The Father Himself is giving you the inheritance of constant happiness and peace. So, you children have this happiness, don't you? To become the residents of heaven is in your fortune. What? Those who *convert* to other religions don't become the residents of heaven, the firm deities. They don't have 84 births. Heaven is a *wonderful* thing. For example, seven *wonders* are shown. This is the biggest *wonder*. What? What would be the biggest *wonder* of the world? Heaven; I give you the inheritance of heaven amidst hell. Those seven *wonders* were made by human beings. And this is the *Ishwariya wonder* made by God. The pictures are also prepared. These Lakshmi-Narayan were the masters of the *wonderful* heaven. This is why Baba had written: show the picture of the *Suryavanshis* above and the picture of the *Chandravanshis* below. The *Suryavanshis* above and the *Chandravanshis* below; in which picture? In the picture of the World Drama Wheel, [show] the kingdom of the *Suryavanshis* [in the Golden Age] and the kingdom of the *Chandravanshis* in the Silver Age. Then, half of the cycle will be complete. You don't have to make Ram and Sita as big as Lakshmi and Narayan. What was said? You have to make Ram and Sita small and Lakshmi and Narayan big. Why? Why do you have to make them big? It is because they had more divine virtues. They were complete with 16 celestial degrees and complete with all the virtues. Two celestial degrees of Ram decrease. You have to make the picture of Ram and Sita the way there is the picture of Lakshmi and Narayan. They (Lakshmi-Narayan) are *Suryavanshi*, whereas they (Ram-Sita) are *Chandravanshi*.

When the Golden Age was of 1250 years, the question of thousands of years doesn't arise at all. The *dynasty* of Ram continued for this long. You can also explain these concepts in a different picture. Baba keeps giving the order to make different kinds of pictures. However, it isn't the rule of this *government*. Which government? The *Ishwariya government*. Now, the *Ishwariya government* isn't ruling. We all are serviceable now. The serviceable ones shouldn't rule or *order* anyone. It isn't that if we *order*, it will immediately work. The kings used to *order* and if someone didn't immediately perform that task, he was put into prison. That can't happen here. These pictures can be made. However, there aren't such broad-minded, serviceable children now. Which picture did He ask to prepare? First, He asked to prepare the very picture of the Trimurti. What did He say? This picture of the Trimurti isn't accurate. You should make the *accurate* picture of Trimurti. Why not prepare the *accurate* picture of Brahma, Vishnu and Shankar? So, someone will prepare it [accurately] only when he knows them accurately. In addition, he will prepare it only when he accepts them completely even after knowing them. He

should know, accept as well as follow the methods told by them, then he can have the *authority* to prepare it.

So, if someone has so much power, what can't he become? In fact, you receive the emperorship of the world, so there should be the expenditure of multimillions. That government spends so much that don't even ask about it. They spend so much for physical power (*bahubal*)! As regards the *governments* of the world, whether it is the *government* of Russia, America, London or the European *governments*, they spend so much for their *security*! Look, they spend so much for *bahubal*! They spend so much for preparing atom bombs, missiles, making a *military* ready [and] making aeroplanes! All this is their *bahubal*, whereas you take the kingship through *yogabal*. How much do you spend on *yogabal*? You don't spend even a *pai paisa* (something least valuable) [for it]. In fact, Baba says: open a *Gitapatashaalaa* in just one room. Cook, sleep, clean [and] conduct *class* in the same [room]. So, does it involve any expenditure? Nothing at all. Here, there is no question of spending money at all. You don't spend anything here at all.

Here, you don't even spend five million from the beginning till the end. What did He say? Each *mega programme* is of one million each. So, what was this said that you don't even spend five million? (Student: it isn't about there.) Yes. They who spend one-two million belong to the other *government*. What? Their very flag consists the Incorporeal One. Which is our flag? Our flag is of the Trimurti. Our flag of Trimurti has started now. It isn't about expenditure now at all. What is the expenditure of the *gitapatashaalas*? When our gathering is ready, our *government* is ready, the expenditure will be no more than even five million. There isn't any expenditure at all. This is the account of the Father and the children. There isn't any expenditure in it at all. Children come and are refreshed here. This is why He has to build buildings etc. It is the children's money and they themselves come and stay. So many days have passed. Few days are left. There isn't any expenditure etc. You children receive *jiivanmukti* without spending a *cowrie*. The only hard work involved in it is of remembrance and service. All the devotees certainly remember God. However, those devotees don't know who God is. Because of not knowing God, they consider many [people] to be God. They consider God to be present in everything, in *thikkar-bhittar*, the incarnation of a turtle and the incarnation of a fish.

Well, God certainly doesn't have so many forms. They also say: O Purifier of the Impure Ones! Come. When they say 'O Purifier of the Impure Ones! Come,' He will come and purify [others], won't He? Why is He called? He is called to purify the impure ones. It isn't that He would go back after narrating the knowledge. Just like He came in the body of Brahma, left the body and went on 18th January, 1969. No one became pure from impure. So, the work wasn't completed. Then, this praise 'O Purifier of the Impure Ones, come!' has certainly become false. No. He didn't go back. His task through one personality was completed. The task of the establishment of the Brahmin religion was completed. Now, He sits and performs the task of teaching the Brahmins and making them into deities through the second personality. And those who become the Deities from the Brahmins are handed over the task of sustenance through the third personality, Vishnu. Om Shanti.
