Clarification of Morning class 21.12.1968

The morning *class* dated 21.12.1968 was going on. Fifth page of [the *vani*] on Saturday. We were discussing that the soul is *ruup* (beauty) as well as *basant* (spring). And that small soul has so much knowledge. Now look, you certainly keep listening, don't you? Or you too keep narrating, don't you? So, the vessel like intellect should be so nice, completely pure. No thought should arise in that vessel [like intellect]. The children certainly have thoughts, don't they: 'this one utters bad words.' So, all this should stop. And how many of such thoughts arise? They say that storms come. All the storms should stop. They will stop if you make *purushaarth* continuously. Only then the Father asks you to fight from all the sides. And this soul certainly has the mind and the intellect, doesn't it? Make your vessel pure by [breaking the connection of] your intellect from all the sides and continuously connecting it with Me. Make these ears also pure so that the gems that you miss stay [in the intellect]. They should stay so that you keep donating gems to others as well. This is why, children, this Bharat is [praised as] a great donor. Bharat donates a lot. So, that is the donation of wealth. Many donate wealth and money. And many do that in foreign countries. *Arey*, but it is the donation of the imperishable gems of knowledge which the Unlimited Father gives you children here, in the Confluence Age. This is why this donation is very famous. And what do you donate? This body and along with the body, everything which is related to the body, [everything] for which you keep saying 'mine, mine', you have left all that and belonged only to the Father. Now tell Me, there is so much hard work involved in it, isn't there?

Baba certainly tells you the *aim* [and] *object*. Now, to make *purushaarth* is certainly the task of the children themselves. So, the extent to which you make this *purushaarth*... and when the speed of the *purushaarth* of the intellect reaches depth, it is only then that you can attain such a high position. Whatever thought you have, whether it is an opposite thought, wrong thought, right thought, you shouldn't have any of them. Yes, He is the Ocean of *Knowledge*. He will certainly be called the Ocean of *Knowledge*, won't He? He sits and explains beyond the limited and the unlimited. Baba explained that day as well and you understand that Baba sees us. No children. I don't sit and look at each one. I am completely beyond the limited and the unlimited. I go above as well. It is because I am certainly the resident of [the place] above. So, I teach you too to reside above. You too have to go beyond the limited and the unlimited, beyond everything. When you stop having all these thoughts of the outside [world], the dirty [thoughts], the storms of dirty thoughts, you will go completely above, you will go Home. So, you should do the hard work of controlling the thoughts.

Even then, the Unlimited Father says: yes, while living in the household, while living in the mire of household, while living like a lotus, work with your hands but let your heart be with the *Yaar* (the Beloved One) (*kam kaar de dil yaar de*). You listen to all these concepts and you also narrate them after listening, don't you? The householders also come here, don't they? Look, there are many householders here, in the *class*. Now, you also know that the extent to which the householders can grasp [the knowledge] and the extent to which they grasp it, those who live in the house, in Baba's house, even they can't grasp it to that extent. Look, it is also a *wonder* that those who live in the household and come here only to *refresh* [themselves], either they come here or go there, to the *centre*, the one who runs the *centre*, the one who narrates the *vani*, *arey*, sometimes even she goes to hell completely, she fails. And the children who study go higher [than her]. So, you children will go ahead, won't you? You will automatically [go ahead]. You will come to know

of everything; whatever Baba explains is completely true. What He explains today, He explains this itself that Maya gobbled her completely. Then, you will also listen to these concepts and you must be listening to them as well. Those who narrated to us, explained to us, Maya gobbled even them. They will be called *maharathis*, won't they? Look, Maya gobbled even them. She gobbled them. They aren't present now at all. They completely belong to Maya. Just like there are traitors, aren't there? There are so many traitors in foreign [countries]. You must have heard that an American will go and take refuge in Russia. A Russian will go and take refuge in America. They go from where to where! Whoever they see is *powerful*, they go on their side. As for the rest, there are many [of such ones] at present. It is because death is standing ahead, isn't it? Now, they will go to the one who is very *powerful*. So, you certainly understand that you belonged to Maya. Now, the Unlimited Father who is very powerful is with you at this time, isn't He? Yes, at this time. When Maya comes, no one comes to know about it at all.

Now, the Father comes and teaches, doesn't He? He teaches everything. And you truly know that Baba is Almighty. Oh! He makes us the masters of the entire world while teaching us continuously. Is there any of such thing in the world which Baba doesn't give? Only then it is said that there is nothing lacking for which you would have to make *purushaarth*. Sixth page of the morning *class* dated 21.12.1968. Tell Me, what do you want? Do you want diamonds, pearls, gold? How much do you want it? Look, what is lacking there? There is no such thing which you lack. That too it is certain that you will find it number wise according to the *purushaarth*. At whichever *number* you make *purushaarth* here... it is called number wise according to the *purushaarth*.

Now, you know that the child doesn't know these concepts without the Father. They are worshippers, aren't they? There are very big Shankaracharyas even now. You have heard about them, haven't you? You have come after seeing Shankaracharyas' current condition. They have become so *tamopradhaan*. And Baba sits and glorifies them, doesn't He? When their institution was established, these sanyasis were vice less, *nirvair* (those who don't have enmity with anyone), *vaanprasthi*, those of the path of renunciation. So, when their institution is newly established, they give a lot of happiness to Bharat. It is because purity is the store of Bharat, isn't it? And Bharat is *number one* pure. And when it becomes impure, someone is certainly required to stop it [from degrading], isn't it? So look, these sanyasis have become instrument to stop Bharat [from degrading]. But they become the instruments when they were *satopradhaan*. When they were *satopradhaan*, they become the instruments. Now, they too... *Arey*, this entire tree itself has become old, dilapidated, *tamopradhaan*. So now, what power is left in it? And even now He says, He Himself says that Shankaracharya himself establishes purity. And he himself says: we are worshippers. They aren't worship worthy, are they, children? They go to temples and worship deities, don't they? They keep the idols of Shiva, [the idols] of *devis*. Everyone keeps them. So, he became a worshipper, didn't he, children? Now, not even a single person is worship worthy among those sanyasis. Now, you were worshippers from the beginning. Yes, the Father has explained this as well: you were pure worshippers in the very beginning. And no one else, except the Unlimited Father, knows about this, do they? So, your souls go towards the left path first of all and then you become worship worthy as well. You become worship worthy from being worshippers, don't you? So, the *history* and *geography* of the *world*, the *history* and *geography* of happiness *must repeat*. You will use the word '*repeat*' for happiness, won't you? And you certainly won't use it for sorrow. So, for this very time, it is said that it is the *repetition* of just happiness now. The Unlimited Father sits and explains to you about happiness. Om Shanti.
