Clarification of Morning class 24.12.1968

The morning *class* dated 24th December, 1968 was in progress. On Tuesday, we were discussing the topic in the second-third *line* of *page* three. The soul of you children is impure so look, how impure the body is! It is as if you are lying in the river of vices. You understand this, don't you? He sits and says this for you: you have certainly come in the Confluence Age. Where are the very big ministers, wealthy people and emperors etc. of the world sitting? You certainly aren't sitting in a hut. Baba has taken you out of the hut. Your soul has also become pure after coming out of it. So, all of you souls become pure number wise according to your *purushaarth*. Not everyone becomes pure. And look, where those worldly people are sitting when compared to you. They are sitting in a hut. The soul is totally *dirty*. It is the *dirtiest of the dirty*. This is why look, those kings became very dirty, didn't they? They went abroad, they danced and did so and so there. So, they started spending all their money there. There, they started squandering money and running crazily after women. They started returning after getting married there. So look, you will think over this, won't you? They are lying in an extremely dirty gutter. They have put a temporary curtain over it. As for the rest, they are no doubt lying in a lot of dirt. They are certainly lying in a *gutter*, aren't they? And look at yourself; by remembering Baba continuously and your soul... You speak to the soul: O soul! Baba also speaks to the soul. You have come out of huts. Baba has taken you out of those huts. You were sitting in a house near dirty gutters. He has taken you out from there. You have come out of it. Did you understand? And all those who have been released from there and have come here, those who are in the zenith of knowledge, they don't fear anyone.

When you have found the Father, no matter who it is, you will do that. Did you understand? It is because when you have this elation, you can tell this to anyone. And they will say for you: why did you leave it? *Arey*, what did we leave? *Arey*, you have to become a soul. The Father, the Unlimited Father has come. That Unlimited Father makes our soul *pure* for us and gives us a *first class* new body. There is a vast difference between this body and your body of the Iron Age. And your body is the same now as well, isn't it? There are the same hands, legs, noes, eyes and ears. And where is the soul? Where is your soul sitting? Your soul keeps sitting in this. Now, your soul... Ask yourself, won't you: where is my soul sitting? Yes, it is sitting in a hut, isn't it? It is sitting beside dirt. Ask them this. This is why it is called a *tamopradhaan* world, isn't it? *Arey*, who will stay in that *tamopradhaan* world? Just have a look at the *tamopradhaan* world. Just think: where have we come from and from where has Baba released us after coming. From extreme dirt, from a dirty gutter, from the river of vices. And now, He is adorning us after taking us out of that river. Now, our soul will become pure. Our soul will receive such *first class* bodies. *Oh*, there will be *first class* [houses] for us to live. This is certainly called [heaven]. He takes us to *heaven*. Children should have all these thoughts.

You understand this as well. You did understand, didn't you? Now, those who are here are also very wealthy. Some are wealthy. But because of not having the complete knowledge, those poor ones are sleeping comfortably with money under their head. And look here, all that money etc. will be of no use at all. Such a time will come in future that those who are sitting keeping [money] under their head... So, Baba makes you feel elated, doesn't He: *arey*, what have you become, where your soul was and it has degraded and fallen in a *gutter*. This is why it is said that it has fallen in a brothel. At some point of time, the soul was present in *Shivalay* (the house of Shiva) and it was pure. It was present there. So, you should come up with a solution for this, shouldn't you? Everyone should quickly come up [with a

solution] together, shouldn't they? So, Baba feels astonished. Children don't have that wisdom even till now: from where does Baba take us out after coming and where is He taking us?

Now, the Pandav *government* will be said to be Baba's and not theirs. Baba will be called the founder of the Pandav *government*. [He makes] the Pandav *government* from the Kaurav *government*. At least compare the Pandav *government* with the Kaurav *government*. Look, you were in the Kaurav *government*, weren't you? And now, you have come in the Pandav *government*. Look, will be called with different [names], won't it? The Pandav *government* is certainly heaven. Bharat was *svarg*, *heaven*. The same *heaven* has become *hell* now. It is of no use at all. Fourth *page* of the morning *class* dated 24th December, 1968. Now, you should have mercy on your soul. Who is sitting here? The soul is sitting. Where has it come and is sitting? It is [sitting] in the *tamopradhaan*, extremely dirty world. Where were we? Baba, take us [back] to the very abode where we were earlier. So, understand yourself to some extent at least. You are sitting here. Still, you children should just have this thought: Baba...

Baba says just one thing, doesn't He? Baba tells me for these children: make a *first class university* for the very good daughters. It is correct, isn't it? It is because it has been made. It is made every cycle. It is definitely made like this. Many days they sit on a rooftop like this... They sit on a rooftop and when the higher examination takes place, they go and sit at the *university*, don't they? So, there have been such universities from the beginning itself. As long as you keep climbing and climbing, your soul is pure. Now, your... Baba says this to you: 25% are sitting now. Now, you don't have that elation of [studying] at the *university*. If you have that elation, you will do anything and prove yourself. You have understood, haven't you? You will have very grand thoughts. It is correct, isn't it? Becoming *luun paani*¹... there are so many wasteful thoughts. This is explained to these daughters as well. It is because Baba keeps calling them. Come on, I will send you to the *university*, the *university* of Baba. So, they don't understand the meaning of *university* at all. They don't have the elation of *royalty*. Why? Maya has caught them for some or other reason. Baba keeps explaining as well: they don't have such elation. These committees etc. that are formed... First, everyone should check his qualification. It is correct, isn't it? Now, Baba will certainly ask everyone for their *qualification*. You did understand, didn't you? And I will check their *qualification* that how they study, what they receive and what help they lend. This isn't a *pakora*² of words (boast) so that you eat it. No. This is something to bring in *activity*. It is about doing what you say.

Arey, you shouldn't listen to anyone's boast here: yes, we will do this, we will do that. We will make today's arrangements tomorrow. If death comes today, you will die at once. You did understand, didn't you? It is because you can't trust anyone at all. You won't say in the Golden Age that you don't trust anyone. I trust him today and tomorrow, I won't. This won't happen there at all. You neither die an untimely death there, nor do you have such thoughts there, in the new world. In future, there is no name and trace of death at all. It is correct, isn't it? There is no question of dying [there] at all. Death can't come there at all. And children have heard many stories that death doesn't enter the Abode of Happiness. They don't even understand its meaning. These people don't understand it. They have just made stories. It is a *practical* [fact] that death isn't allowed in the Abode of Happiness. It isn't

allowed to enter there. So, Baba has explained: it certainly isn't allowed to enter there. However, there is no death there. Ravan doesn't exist there at all.

So, you should understand the kingdom of Ravan and the kingdom of Ram very nicely. And now, your fight is with this community of Ravan. This is the community of Ravan. He is body conscious. And body consciousness is such... Good heavens! We are watching it well that body consciousness does wonders. What a comparison between soul consciousness.... Now, the soul becomes pure. So, what does it receive? Look, think from now itself: what is our soul becoming and how will our palaces be built? Now, truly, when compared to us... It means Baba certainly says for you: you have come in the Confluence Age. But earlier, you were [that], weren't you? Now, you are reforming number wise. Now, you are becoming worthy. Baba says, doesn't He: what is it for those who are unworthy? The soul as well as the body has become unworthy. Where have you fallen! You have become the residents of hell. *Arey!* Your body has also become impure because your soul is impure. And you have no doubt become the residents of hell. Now, I have come to make you the residents of heaven. You should follow the *shrimat* nicely and become flowers. You should have so many divine virtues along with remembrance. Daughter, is it easy to assimilate the divine virtues? No, no! It is you who assimilate the divine virtues. Maya gives you a slap and makes you into a demon. You did understand, didn't you? Maya is very powerful. You don't think that Baba has come and you will become Narayan from a man (*nar*). *Arey*, but the challenge here is very great. And this challenge is hidden. Fifth *page* of the morning *class* dated 24.12.1968. It is certainly said to be *incognito*. And your fight is also *incognito*. No one can understand it. The fight is going on within everyone. Your fight is such. This is why you and your name alone becomes famous as *unknown warriors*. The *unknown warriors*. The English also say: *Unknown warriors*. They celebrate their memorial. So, they make some or other [memorial]. Then, they come ahead and [stand in] *silence* for *three* minutes. *Unknown warriors*. *Arey*, no one [else] is an *unknown warrior*. It is only you who are called *unknown warriors*. There are no *unknown warriors* in the world of Maya at all. Om Shanti.
